## Ball Ground selected for community program

Ball Ground has been selected to participate in the 2008-09 Community Choices Implementation Assistance program.

The Atlanta Regional Commission sponsors the program and its staff will

begin assisting the city in revising its municipal sign and tree ordinances in May.

To be selected, counties and cities must demonstrate a commitment to quality growth concepts, elected official support, local staff time and community support of the project or plan.

By revising and improving the city's sign and tree ordinances, Ball Ground will be better equipped to provide a safe and livable community, according to ARC officials.

The ARC Community Choices will meet with Ball Ground's elected officials and city staff and then develop a detailed project proposal, scope of work and work schedule.
