Darrell Caudill

City Clerk Karen Jordan

We Roll Out the Red Carpet Not the Red Tape."

December 15, 2017

To The Honorable Mayor, Members of the City Council and Citizens of Ball Ground, Georgia:

The Comprehensive Annual Financial Report of the City of Ball Ground, Georgia (the "City"), for the fiscal year ended June 30, 2017, is hereby submitted as mandated by both local and state government. These ordinances and statutes require that the City issue annually a report on its financial position and activity, and that this report be audited by an independent firm of certified public accountants. This report was prepared by the City's Finance Department. Responsibility for both the accuracy of the presented data and the completeness and fairness of presentation, including all disclosures, rests with the City. To the best of our knowledge and belief, the enclosed data is accurate in all material respects, and is reported in a manner that presents fairly the financial position and results of operations of the various funds of the City. All disclosures necessary to enable the reader to gain the maximum understanding of the City of Ball Ground, Georgia's financial affairs are included.

The City of Ball Ground, Georgia's financial statements has been audited by Mauldin & Jenkins, LLC, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of Ball Ground, Georgia for the fiscal year ended June 30, 2017, are free from material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the City of Ball Ground, Georgia's financial statements for the fiscal year ended June 30, 2017, are fairly presented in conformity with Generally Accepted Accounting Principles (GAAP). The independent auditor's report is presented as the first component of the financial section of the report.

The financial reporting entity for the City of Ball Ground, Georgia includes all funds of the primary government, the City of Ball Ground, Georgia. The City provides a full range of services including police, building inspections, zoning, code enforcement, municipal court, the construction and maintenance of streets and infrastructure, recreational activities and cultural events, water and sewer service, and sanitation.

Management's discussion and analysis immediately follows the independent auditor's report and provides a narrative and overview of the basic financial statements and should be read in conjunction with the transmittal letter.

GOVERNMENTAL STRUCTURE, LOCAL ECONOMIC CONDITION AND OUTLOOK

The City of Ball Ground, Georgia is governed by a Mayor and five Council Members. The City Council consists of five members elected at large for staggered four-year terms. The Mayor is the sixth voting member of council, who along with the remaining council members is elected on a non-partisan basis. Council provides responsive, progressive leadership and a vision for the community by setting policies, passing ordinances, adopting the budget, and hiring the City Manager. The City Manager carries out the policies and ordinances of the City Council, oversees the day-to-day operations of the City, prepares the budget, and supervises the various department heads.

The City of Ball Ground, Georgia operates its own water and sewer system. The water system is supplied by wells within the City along with water purchased from the Cherokee County Water and Sewer Authority. The City has a contract with the City of Canton for its sewer treatment. The City also has an existing contract for residential garbage pickup. This contract affords a significant savings to residential customers, as the City is not required to invest in assets and reserve equipment needed to provide this service.

The City of Ball Ground, Georgia is primed for future economic development, given its strategic location. The infrastructure improvements completed over the past several years emphasize the additional economic possibilities for the City of Ball Ground, Georgia. The growth of its revenue base will continue to improve the quality of life and financial stability of the City of Ball Ground, Georgia.

FINANCIAL INFORMATION

Accounting System Internal Controls. The management of the City is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the City are protected from loss, theft, or misuse, and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition; and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the evaluation of costs and benefits requires estimates and judgment by management.

As a recipient of federal, state, and local financial assistance, the City is also responsible for certifying that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to federal assistance programs. This internal control structure is subject to periodic evaluation by management of the City.

Relevant Financial Policies. The City of Ball Ground has established a policy requiring an annual review of all debt with comparison to current market rates and trends. If current rates appear to be favorable for cost savings, proposals for refinance are accepted. During this reporting period, it was found to be favorable to restructure our forty year sewer bond originally with the United States Department of Agriculture (USDA). Although the refinance had a negative impact on cash flow with higher monthly payments we determined that it would be far more beneficial in the long term. Although the monthly payment increased by \$2,883, our loan maturity date was shortened from 2044 to 2031. Additionally we were able to reduce our interest rate from 4.25% to 2.785%. This results in a tangible savings of \$404,000.

The City of Ball Ground has established a policy requiring an annual review of all assessed fees and billing rates. In 2011 this review resulted in a reduction in monthly rates for solid waste services by \$1.00 per month per customer. The same review process as in the previous fiscal year revealed to maintain the original rate of \$17.00 per month per customer.

Budgeting Controls. In addition to internal controls, the City maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the City Council. Activities of the General Fund, District Fire Tax Fund, and Enterprise Funds are included in the annual appropriated budget. Expenditures may not legally exceed appropriations at the department level within each fund. As demonstrated by the statements and schedules included in the financial section of this report, the City continues to meet its responsibility for sound financial management.

Major Initiatives. During this reporting period, the City has completed an in depth assessment of the future demand and capacity for both water and sewer resources. Currently our system is serviced by a single source water well, but capacity limits future growth and development. Four attempts to drill new wells have been unsuccessful, which also means the funds spent on these attempts will produce no revenue. During the course of this reporting period, the City has worked to enter an agreement to secure future water capacity from a larger, very secure system, at wholesale rates by buying capacity in their water treatment plant. In the fiscal year 2017 reporting period, you will see evidence of the first purchase made. Future purchases of both water and sewer capacity will also be made that will secure the ability for continued growth and development, as well as drought protection.

Looking forward to 2018 we will continue to evaluate electrical consumption and initiate implementation of cost reduction strategies. We will also continue our phased conversion of City owned facilities and lighting to LED. Other new initiatives will include new ordinances making the City of Ball Ground the sole residential solid waste service provider in the City as well as the creation of a Storm Water Utility that will be implemented along with a storm water fee.

The City of Ball Ground staff, DDA and Main Street components have continued efforts matching property owners with buyers and tenants. This has led to the complete restoration of two blighted and unsafe commercial properties in the core downtown, as well as the removal of two blighted residential units being replaced with quality residential in fill.

Long-Term Financial Planning. The City of Ball Ground does not anticipate major changes in either revenue sources or expenditures in the future. The City has taken a conservative approach to budgeting and finance, with an emphasis on estimating expenses on the high-end and estimating revenues on the low-end. We anticipate being able to manage through the current financial challenges by using expenditure control to maintain current capital assets rather than the purchase or construction of new capital assets.

AWARDS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Ball Ground for its comprehensive annual financial report for the fiscal year ended June 30, 2016. This was the tenth consecutive year that the City has received this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently

organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to GFOA to determine its eligibility for another certificate. The City is committed to this effort and will strive to maintain and surpass these standards on future reports.

ACKNOWLEDGEMENTS

The preparation of the comprehensive annual financial report, on a timely basis, could not have been accomplished without the dedication and cooperation of the entire City staff. We would like to express our appreciation to each member who assisted and contributed to the preparation of this report. We also extend our appreciation to our independent auditors, Mauldin & Jenkins, LLC, for the professional guidance and assistance in producing a technically sound document. Most importantly, we express our appreciation to the Mayor and City Council for their dedication, leadership, vision, and support in planning and conducting the affairs of the City of Ball Ground in a responsible and progressive manner, which ensures that Ball Ground is a well-rounded, vibrant community to call home.

Respectfully submitted,

FINANCIAL SECTION

The financial section includes the independent auditor's report on the financial statements, the MD&A which provides a narrative introduction, overview and analysis of the financial statements, the basic financial statements including footnotes, and supplementary information.

INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and Members of the City Council Ball Ground, Georgia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, and each major fund of the **City of Ball Ground, Georgia** (the "City"), as of and for the fiscal year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, and each major fund of the City of Ball Ground, Georgia, as of June 30, 2017, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund and the District Fire Tax Fund for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4-16 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Ball Ground, Georgia's basic financial statements. The other supplementary information and the introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The other supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 15, 2017 on our consideration of the City of Ball Ground, Georgia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of Ball Ground, Georgia's internal control over financial reporting and compliance.

Manddin & Jenlins, LLC

Atlanta, Georgia December 15, 2017

MANAGEMENT'S DISCUSSION AND ANALYSIS

Management's Discussion and Analysis (MD&A) is a narrative introduction, overview and analysis of the basic financial statements prepared by the City's Finance Director.

This discussion and analysis of the City of Ball Ground, Georgia's (the "City") financial performance is prepared by management to provide an overview of the City's financial activities for the fiscal year ended June 30, 2017. We encourage readers to consider the information presented here in conjunction with the financial statements.

FINANCIAL HIGHLIGHTS

- Total Net Position is comprised of the following:
 - 1) Net investment in capital assets of \$10,114,401 includes property and equipment, net of accumulated depreciation, and is reduced for outstanding debt related to the purchase or construction of capital assets as compared to \$10,587,054 in fiscal year 2016.
 - 2) <u>Restricted net position</u> of \$61,829 represents the portion to be used for fire protection services. This is a 16% decrease from the previous year (\$73,506).
 - 3) <u>Unrestricted net position</u> of \$939,197 represents the portion available to maintain the City's continuing obligations to citizens and creditors. This is a increase of \$148,505 from the previous year's balance (\$790,692).
- ➤ The City's total assets, \$14,333,346 and deferred outflows of resources, \$69,306 exceeded its liabilities of \$3,287,226 by \$11,115,426 (total net position) for the fiscal year reported as compared to \$11,451,252 as total net position in fiscal year 2016. The total assets are 4.36 times the total liabilities.
- The City's capital assets, net of accumulated depreciation, decreased by \$501,917 primarily due to depreciation expense.
- The City's total liabilities decreased by \$110,697 or less than 3.26% as a result of net effect of the decrease in current liabilities of \$73,470 and a decrease of noncurrent liabilities of \$37,227 as compared to the prior fiscal year.
- As of the close of the current fiscal year, the City of Ball Ground's governmental funds reported combined ending fund balances of \$627,706 an increase of \$68,654 in comparison with the prior year. Of this amount, \$408,685 is unassigned and available for spending.
- At the end of the current year the unassigned fund balance for the governmental funds was \$408,685 or 25% of the governmental funds expenditures as compared to 10% in the prior fiscal year.

OVERVIEW OF THE FINANCIAL STATEMENTS

This Management Discussion and Analysis (MD&A) document introduces the City's basic financial statements. The City of Ball Ground's basic financial statements include: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. The City also includes additional information in this report to supplement the basic financial statements.

Government-wide Financial Statements

The City's annual report includes two government-wide financial statements. These statements are designed to provide readers with a broad overview of the City of Ball Ground's finances, in a manner similar to a private-sector business.

The first of these government-wide statements is the Statement of Net Position. This statement of net position presents information that includes all of the City's assets, deferred outflows of resources, and liabilities, with the difference between the three reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating. However, the reader needs to consider other non-financial factors, such as changes in the City's property tax base and the condition of the City's infrastructure, in addition to the financial information in this report in order to assess the overall health of the City. The Statement of Net Position includes all assets, deferred outflows of resources, and liabilities using the accrual basis of accounting which is the accounting method used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

The second government-wide statement is the *Statement of Activities* which reports how the City's net position changed during the most recent fiscal year. All current year revenues and expenses are included regardless of when cash is received or paid. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City of Ball Ground that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City of Ball Ground include public safety (police), public works, parks and recreation, planning and zoning, building inspection, code enforcement, municipal court services, and general administrative services. The business-type activities of the City include water and sewer and solid waste services.

The government-wide financial statements include the primary government for the City of Ball Ground and one legally separate entity, the Downtown Development Authority, for which the City is financially accountable. It is included in the financial statements as a discretely presented component unit.

The government-wide financial statements can be found on pages 17 and 18 of this report.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Ball Ground, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements report short-term fiscal accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's financing requirements and the commitment of spendable resources for the near-term. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City of Ball Ground maintains three individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, District Fire Tax Fund and the Special Purpose Local Option Sales Tax ("SPLOST") Fund. All three are presented as major funds.

The City of Ball Ground adopts an annual appropriated budget for its General Fund and District Fire Tax Fund. A budgetary comparison statement has been provided for the General Fund and the District Fire Tax Fund to demonstrate compliance with these budgets.

The basic governmental fund financial statements can be found on pages 19 through 24 of this report.

Proprietary funds. The City of Ball Ground maintains only one type of proprietary fund called an enterprise fund. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City uses enterprise funds to account for its water and sewer and solid waste operations.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the water and sewer operations and the solid waste operations. The water and sewerage fund and solid waste fund are considered to be major funds for the City of Ball Ground.

The basic proprietary fund financial statements can be found on pages 25 through 28 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City of Ball Ground, assets and deferred outflows of resources exceeded liabilities by \$11,451,252 at the close of the most recent fiscal year.

The vast majority of the City of Ball Ground's net position, reflects its investment in capital assets (e.g., land improvements, buildings and improvements, machinery and equipment, infrastructure and vehicles), less any outstanding debt used to acquire those assets. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City of Ball Ground's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since capital assets themselves cannot be used to liquidate these liabilities.

CITY OF BALL GROUND'S NET POSITION TABLE I

Total net position of the City's governmental activities decreased by \$138,995 in fiscal year 2017 (\$8,010,964 in the current fiscal year versus \$8,149,959 in the prior fiscal year). The business-type activities, which includes the water and sewerage fund and solid waste fund ended the year with a decrease in net position of \$196,831. The City's total net position, which includes both the governmental and business-type activities, decreased \$335,826. Unrestricted net position, the portion of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements, totaled \$939,197 which is an increase of \$148,505 from the prior year. These funds may be used to meet the government's ongoing obligations to citizens and creditors. Only the \$61,829 portion of the City's net position is subject to external restrictions on how it may be used.

Governmental Activities. The City of Ball Ground's net position in governmental activities was decreased by \$138,995 which resulted from a decrease in total assets of \$312,621, a decrease in deferred outflows of resources of \$5,986, and a decrease in total liabilities of \$179,612. Significant elements that contributed to the decrease of net position are discussed below.

Decrease in Total Assets

The decrease of total assets is the result of an increase depreciation expense as well as the sale of a parcel of property (367 Old Canton Road).

Decrease in Deferred Outflows of Resources

The decrease of deferred charges of a prepayment penalty is a direct result of the amortization of the prepayment penalty as it is recognized each year.

Decrease in Total Liabilities

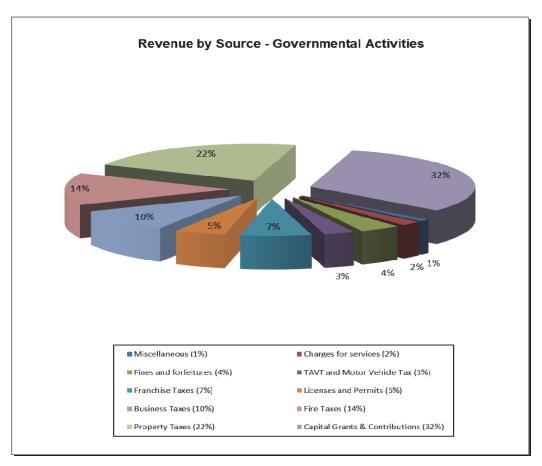

The total liabilities decreased by \$179,612 as compared to the prior year; however, the cause of the decrease is due to the net effect of a decrease in current liabilities \$69,951 and a decrease in long term liabilities \$109,661.

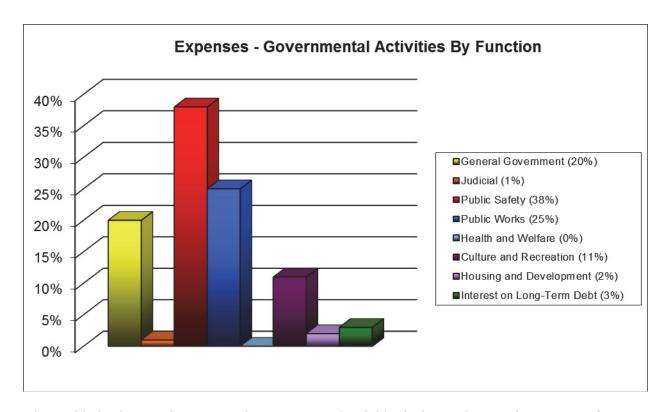

The current liabilities were reduced primarily due to the decrease in accounts payable and accrued interest payable as compared to last fiscal year. Prior year accounts payable included the Stream Crossing Fund payable of \$66,885 and Municipal Cash Bonds of \$6,136. During fiscal year 2017 the funds for the Stream Crossing Fund were released to the City of Ball Ground for restricted capital projects. The reduction of accrued interest was the direct result of the change of due dates for loan payments.

The continued principal payments to existing debt resulted in a decrease the noncurrent liabilities.

Decrease in Revenue

The governmental activities program revenues decreased for fiscal year 2017 by \$850,062 as compared to fiscal year 2016 primarily due to the decrease in capital grants and contribution revenues. During fiscal year 2016 the City accepted donated roads, sidewalks, and all related infrastructure for four roads in North Mountain Brooke Subdivision at a rate of \$1,014,983, however the City did not accept any contributed infrastructure during fiscal year 2017.

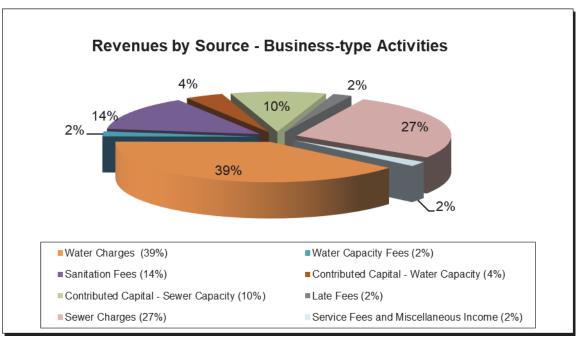

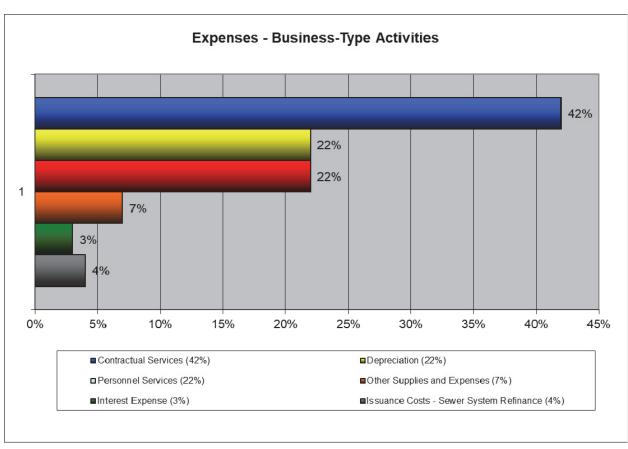

Along with the decrease in revenues the governmental activities had a net decrease in expenses of \$30,406. When comparing the expenses of fiscal year 2017 to that of the prior year the expenses of General government and Public safety program functions were increased and the remaining six program functions were decreased. The program function increases are as follows: General government \$17,129 and Public safety \$74,997. The program function decreases are as follows: Judicial (\$887), Public works (\$16,650), Health and welfare (\$6,279), Culture and recreation (\$14,444), Housing and development (\$12,910), and interest on long-term debt (\$71,362).

When comparing an overview of the current year increases in the program expenses as compared to last year's there were several key elements that caused the increases.

General Government – experienced increased expenses due to increases in depreciation expense on capital assets, general government buildings repair and maintenance expenses and some additional education and training expenses of Clerk of Council and City Manager.

Public Safety – experienced the largest increase of \$74,997 due to several key items. The first is the increased depreciation associated with the purchase of a new police vehicle. The other factors which contributed to the increase are the building of the new fire station's brick mail box and an increase in the police department's workers compensation and liability insurance premiums.

Business-type Activities. The operating revenues increased by \$70,260 in the current year as compared to the prior year. As in the prior year, the continued development of subdivisions, primarily Sage Hill and Heritage Woods, resulted in 54 more customers who contributed to the increase of charges for water and sewer services and 68 new sanitation customers which contributed to the increased charges for sanitation services.

During fiscal year 2017 there was substantial development in two new subdivisions, Sage Hill, and Heritage Woods in addition the Phase I development of Universal Alloy Corporation. The City issued 36 less building permits in fiscal year 2017 as in the prior year; however, since the cost of each building permit varies depending on the size and other specifications of the dwelling the annual revenue was different. In fact the revenue in fiscal year 2017 was \$16,218 less than fiscal year 2016 due to the differences in the dwellings built in the two year period.

Along with the decreased number of building permits issued by the City in fiscal year 2017 as compared to the prior year, the number of water and sewer capacity fees also decreased. In fiscal year 2016, the City collected for 44 residential, 3 irrigation, and 2 commercial (2" meters) water capacity fees and 19 residential sewer capacity fees, as compared to 22 residential, 4 irrigation, and 2 commercial (2" meters) water capacity fees and 9 residential and 2 commercial residential sewer capacity fee in the current fiscal year. However, the difference in the numbers and types of water and sewer connections in fiscal year 2017 resulted in a decrease of water capacity fees of \$14,000 and an increase of sewer capacity fees of \$35,500.

The contributing factor for the slight reduction of water capacity fees is the development in a new subdivision, Heritage Woods, that was annexed into the City and is serviced by the Cherokee County Water and Sewerage Authority and therefore, they collected the water and sewer capacity fees. Although during fiscal year 2017 the number of sewer capacity fees decreased the sale of one large commercial sewer capacity fee actually increased the fees collected as compared to the prior fiscal year.

Some highlights of the business-type operations were as follows:

- During the current fiscal year, the number of water customers increased by 54, the number of sewer customers increased by 36, and the number of sanitation customers increased by 68. Although the numbers may not seem substantial, the percentage increases are as follows: water 5.2%, sewer 5.10%, and sanitation 9.6%.
- The increase in customers directly impacted water, sewer, and sanitation sales. The operating revenues increased by \$70,260 (7.9%): \$51,485 Water and Sewerage Fund ("Water") and \$18,775 in Solid Waste Fund.

Financial Analysis of the Government's Funds

As noted earlier, the City of Ball Ground uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City's *governmental funds* is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, an unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. The governmental funds are comprised of the following: General Fund, District Fire Tax Fund and SPLOST Fund.

As of the end of the current fiscal year, the City of Ball Ground's governmental funds reported combined ending fund balances of \$627,706, an increase of \$68,654 in comparison with the prior year. The increase in fund balances is largely due to the costs savings associated with the City refinancing two loans in fiscal year 2016 along with the proceeds from the sale of capital assets of \$34,001 in fiscal year 2017 compared to \$2,703 in fiscal year 2016.

The General Fund is the chief operating fund of the City. At the end of the current fiscal year, the unassigned fund balance was \$450,548. This amount is available for spending at the City's discretion. The unassigned fund balance increased by \$123,032 (37.6%) during the current fiscal year.

General Fund Budgetary Highlights

Revenues:

Actual revenues exceeded budgeted revenues by \$67,472. Listed below is a brief summary of factors that attributed to the increased revenues in fiscal year 2017.

- Contributions of \$71,200 exceeded budgetary expectations. The contributions were from
 the Valley Station LLC, \$66,885 and from Botanical Garden Donations, \$4,315. The
 contributions from Valley Station LLC are to be used for improvements in the Valley
 Street and Howell Bridge Extension Corridors. The Botanical Garden contributions from
 individuals for the purpose of developing the Botanical Gardens located on the City Hall
 property.
- Business taxes exceeded budget by \$5,254 due to the increase in business occupation taxes
- Licenses and permits exceeded budget by \$7,812 due to the increase in the alcoholic beverage licenses.
- Fines and forfeitures exceeded budget by \$5,148 due to increased traffic violations.
- Investment earnings exceeded budget by \$655 because the City maintained higher balances in the interest bearing accounts.

Expenditures:

Actual expenditures were less than budgeted expenditures by \$14,137. A brief summary of the largest variance of budget shortfall is explained below:

- Public Works Highways and streets exceeded budget by \$48,197 of which \$31,498 was
 due to street lights expenditures. Street lights expenditures were budgeted to be paid for
 with the collection of street light fees however the street light fees were not implanted as
 budget therefore the highways and streets absorbed a portion of the costs.
- During the current fiscal year there were some necessary but unbudgeted repairs and maintenance expenditures of \$9,140 of which \$6,000 was for brush removal from the public works property.
- Another factor contributing to the overage was the expense of snow and ice removal of \$6,287 incurred in order to keep the City streets safe and clear for citizens.

District Tax Fund Highlights

Revenues of \$233,699 exceed anticipated collections of \$182,800. The taxes collected by the City are payable to the County through an intergovernmental agreement for the County to provide fire protection services to the citizens of the City of Ball Ground. The ending fund balance of the fund increased by \$5,668 which is due to the timing of the service contract with the County. The agreement with the County is for the twelve months ending September 30 of each year.

SPLOST Fund Highlights

Revenue totaled \$438,123 which was \$9,592 more than anticipated.

The sales tax was used for various projects in the City. Expenditures for the current year were \$527,790 of which \$182,170 was used for public works projects and costs such as roads, streets, storm drain and other infrastructure improvements; \$147,836 was used for public safety with \$100,000 for the second of two payments to Cherokee County for the City's cost share of the new fire station being built at 420 Valley Street and \$37,043 for the purchase of a 2016 Dodge Charger, \$4,541 was used for culture and recreation (parks), \$193,243 was used for debt service payments.

This fund was the source of debt service payments on leases funding City Hall, Valley Street, 2016 police vehicle expenditure, (2) 2014 police vehicle expenditures, 2015 tag reader, and 2015 John Deere ZTRK mower. The debt service payments for the current year were \$102,632 (City Hall), \$54,801 (Valley Street), \$7,544 (2016 police vehicle), \$8,454 (2014 police vehicle #1 purchased in 2014), \$8,888 (2014 police vehicle #2 purchased in 2015), \$6,626 (2015 tag reader), and \$4,299 (2015 John Deere ZTRK mower) for a total of \$193,244 debt service payments.

Proprietary Funds Highlights

The City of Ball Ground's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Combined unrestricted net position of the Water and Sewerage Fund and the Solid Waste Fund at the end of the year was \$358,515 an increase of \$51,095 (16.6%) from the previous year.

Capital Assets and Debt Administration

The City of Ball Ground's investment in capital assets for its governmental and business-type activities as of June 30, 2017, amounted to \$13,212,452 (net of accumulated depreciation). Capital assets investments include land, construction in progress, land improvements, buildings, machinery and equipment, infrastructure and vehicles.

Major additions of capital assets this fiscal year were the following:

- Water capacity with CCSWA, \$100,000
- 2016 Dodge Charger police vehicle, \$37,403
- Valley Street (resurface southern third), \$56,493
- Repair storm drain failure at school bus entrance, \$7,295
- New storm drain and storm drain structures installed on Old Dawsonville Road, \$9,537
- Retro-reflectivity signs phase 3, \$5,016

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2017

Amounts reported for governmental activities in the statement of activities are different		
because:		
Net change in fund balances - total governmental funds:		\$ 68,654
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlay in the current period.		
Capital outlay	\$ 203,777	
Depreciation expense	(529,497)	(325,720)
The net effect of various miscellaneous transactions involving capital assets and other assets (i.e., donations and disposals) is to increase net position.		
Land held for resale, donated to the City	\$ 20,000	
Capital assets deletions	(2,000)	18,000
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		
Property taxes		(6,669)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. This amount is the net effect of these differences in the treatment of long-term debt and related items.		
Principal payments - capital leases	\$ 33,129	
Principal payments - notes payable	115,010	
Issuance of capital lease	(37,043)	
Amortization of deferred charges	(5,986)	105,110
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds:		
Change in compensated absences	\$ (1,435)	
Change in accrued interest	 3,065	1,630
Change in net position - governmental activities		\$ (138,995)

NOTES TO THE FINANCIAL STATEMENTS

The notes to the financial statements are a required component of the basic financial statements of the City. The notes present required and essential information for the fair presentation of the statements that have not been disclosed on the face of the financial statements.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The financial statements of the City have been prepared in conformity with the accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the City's accounting policies are described below.

A. THE REPORTING ENTITY

The City of Ball Ground, Georgia ("the City") operates under a City Council-Manager form of government and provides the following services to its citizens: public safety (police), public works, parks and recreation, planning and zoning, building inspection, code enforcement, municipal court services, and general administrative services. In addition, the City also offers water, sewer, and sanitation services to the City's residents and the surrounding area

In evaluating how to define the City, for financial reporting purposes, management has considered all potential component units. The City's financial statements include the City's accounts of all operations. As of June 30, 2017, there is one component unit included in the financial statements of the City. The criteria for including organizations within the City's reporting entity, as set forth in Governmental Accounting Standards Board's Statement No. 61 (GASB 61), "The Financial Reporting Entity", is financial accountability. Financial accountability is defined as appointment of a voting majority of the component unit's board and either the ability to impose will by the primary government, or the possibility that the component unit will provide a financial benefit to, or impose a financial burden on, the primary government. The discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that they are legally separate from the City.

The Downtown Development Authority (the "DDA") was created by resolution on September 25, 2005 pursuant to the Official Code of Georgia Annotated (OCGA) Section 36-42-8.1 9a) for the purpose of promoting the redevelopment of the downtown area of the City. The seven members of the DDA's governing body are appointed by the City Council. Although a legally separate entity, the City is financially accountable for the activities of the DDA as the City can impose its will by significantly influencing the programs, projects, and activities of the DDA. Financial information with regard to the DDA can be obtained from the City of Ball Ground, 215 Valley Street, Ball Ground, Georgia 30107. The DDA does not issue separate financial statements.

B. BASIS OF PRESENTATION - FUND ACCOUNTING

The accounting system is organized and operated on a fund basis. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations.

The City's funds are grouped into two broad fund classifications, Governmental and Proprietary. The governmental funds include the General Fund, a special revenue fund (District Fire Tax Fund), and a capital projects fund (SPLOST Fund), while the proprietary funds include the enterprise funds, Water and Sewerage Fund and Solid Waste Fund.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

C. GOVERNMENT-WIDE FINANCIAL STATEMENTS

The statement of net position and the statement of activities display information about the City, the primary government, as a whole. For the most part, the effect of interfund activity has been removed from these statements. However, any interfund services provided and used are not eliminated as this process would distort the direct costs and program revenues reported in the various functions. These statements distinguish between activities that are governmental and those that are considered business-type activities.

The government-wide statements are prepared using the economic resources measurement focus and the accrual basis of accounting. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Therefore, governmental fund financial statements include reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between expenses and program revenues for each segment of the business-type activities of the City and for each governmental program. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipients of the goods or services offered by the programs, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program or business segment is self-financing or draws from the general revenues of the City.

Net position should be reported as restricted when constraints placed on use of net position are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation. The net position restricted for capital improvements result from the capital projects funds and the restrictions on their net position use. The net position restricted for fire protection services results from the restriction on the use of the tax.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

D. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND BASIS OF PRESENTATION

Fund financial statements report detailed information about the City. The focus of governmental and enterprise fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column.

All governmental funds are accounted for using the modified accrual basis of accounting and the current financial resources measurement focus. Under this basis, revenues are recognized in the accounting period in which they become measurable and available. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable.

In applying the susceptible to accrual concept under the modified accrual basis, the following revenue sources are deemed both measurable and available (i.e., collectible within the current fiscal year or within sixty days of fiscal year-end and available to pay obligations of the current fiscal year): property taxes, sales tax, intergovernmental grants and investment earnings. Other revenues, including licenses and permits, and certain charges for services are recorded as revenue when received in cash because they are generally not measurable prior to receipt.

In accordance with GASB Statement No. 33 "Accounting and Financial Reporting for Non-exchange Transactions," the corresponding assets (receivables) in non-exchange transactions are recognized in the period when the underlying exchange occurs, when an enforceable legal claim has arisen, when all eligibility requirements have been met, or when resources are received, depending on the revenue source.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Most expenditures are measurable and are recorded when the related fund liability is incurred. However, debt service expenditures, as well as expenditures related to compensated absences and other long-term liabilities, which have not matured are recorded when due for payment. Allocations of costs, such as depreciation and amortization, are not recognized in the governmental funds.

The City reports the following major governmental funds:

General Fund: This is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

District Fire Tax Fund: This is a special revenue fund to be used to account for monies received from a restricted property tax levy for fire protection services.

SPLOST Fund: This is a capital projects fund to account for financial resources to be used for the acquisition or construction of major capital projects as approved on a referendum for a special purpose local option sales tax dated November 2, 2010. The collection of this tax began in July, 2012.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

D. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND BASIS OF PRESENTATION (Continued)

The City reports the following major enterprise fund:

Water and Sewerage Fund: This fund accounts for the development, operation and maintenance of the utility system that provides water and sewerage service, and for the development of an infrastructure system capable of providing sewerage service.

Solid Waste Fund: This fund accounts for the operation of the City's garbage collection services.

All proprietary funds are accounted for using the accrual basis of accounting and the economic resources measurement focus. These funds account for operations that are primarily financed by user charges. Their revenues are recognized when they are earned and their expenses are recognized when they are incurred. Allocations of costs, such as depreciation, are recorded in proprietary funds. Unbilled utility receivables are recorded at each fiscal year-end. In accounting and reporting for its proprietary operations, the government applies all GASB pronouncements. GASB Statement No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements incorporated into the GASB's authoritative literature certain accounting and financial reporting guidance issued on or before November 30, 1989 which does not conflict with or contradict GASB pronouncements.

Proprietary Funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds are charges for water and sewer usage, and sanitation pickup. Operating expenses for the enterprise funds include all costs to operate the water and sewer system and the contracted operations of sanitation services. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

E. ENCUMBRANCES

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditures of monies are recorded in order to reserve that portion of the applicable appropriation, is not employed by the City because it is at present considered unnecessary to assure effective budgetary control or to facilitate effective cash planning and control.

F. CASH

Cash includes amounts in demand deposits. Statutes authorize the City to invest in U.S. Government obligations, U.S. Government agency obligations, State of Georgia obligations, obligations of other counties, municipal corporations and political subdivisions of the State of Georgia which are rated "AA" or better by Moody's, Investors Service, Inc., negotiable certificates of deposit issued by any bank or trust company organized under the laws of any state of the United States of America or any national banking association, repurchase agreements when collateralized by U.S. Government or agency obligations, and pooled investment programs sponsored by the State of Georgia for the investment of local government funds. Any investment or deposit in excess of the federal depository insured amounts must be collateralized by an equivalent amount of state or U.S. obligations. For purposes of the statement of cash flows, all highly liquid investments with an original maturity of less than 90 days are considered to be cash equivalents.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

G. RECEIVABLES AND PAYABLES

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year as well as all other outstanding balances between funds is reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, represent long-term borrowing arrangements with established repayment schedules, and are offset by non-spendable fund balance in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

H. INVENTORIES

Inventories consist of supplies and are stated at cost. Inventories are accounted for on the first-in, first-out (FIFO) method of accounting for inventory. The City uses the consumption method of accounting for inventories under which materials and supplies are recorded as inventory when purchased and are recorded as an expense when used.

I. PREPAID ITEMS

Payments to vendors for services that will benefit periods beyond June 30, 2017, are recorded as prepaid items using the consumption method by recording an asset for the prepaid amount and reflecting the expenditure/expense in the year in which services are consumed. Prepaid items reported in the governmental funds are also equally offset by a nonspendable fund balance, which indicates that they do not constitute available, spendable financial resources even though they are a component of net current position.

J. CAPITAL ASSETS

Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets are recorded at their estimated acquisition value at the date of donation. General infrastructure assets acquired prior to July 1, 2003 consist of the road network assets that were acquired or that received substantial improvements subsequent to July 1, 1980 and are reported at estimated historical cost using deflated replacement cost. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. The threshold for capitalization for infrastructure and other capital assets is \$5,000.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

	Estimated
Asset Class	Useful Lives
Land improvements	10-20 years
Infrastructure	20-30 years
Buildings	50 years
Building improvements	20 years
Vehicles	2-15 years
Machinery and equipment	3-15 years

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

K. COMPENSATED ABSENCES

The liability for compensated absences in the government-wide and proprietary fund statements consists of unpaid, accumulated annual leave balances. The liability has been calculated using the vesting method, in which leave amounts for both employees who currently are eligible to receive termination payments and other employees who are expected to become eligible in the future to receive such payments upon termination are included. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

L. DEFERRED OUTFLOWS/INFLOWS OF RESOURCES

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City only has one item that qualifies for reporting in this category. It is the deferred charge on early lease retirement reported in the government-wide statement of net position. A deferred charge on early lease retirement results from the prepayment penalty incurred at the time of refunding. This amount is deferred and amortized over the shorter of the life of the refunded debt or the refunding debt.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has only one type of item, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes and these amounts are deferred and will be recognized as an inflow of resources in the period in which the amounts become available

M. USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, and deferred inflows of resources, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

N. LONG-TERM OBLIGATIONS

In the government-wide financial statement and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums, if any, are deferred and amortized over the term of the bond using the effective interest method.

Proprietary fund type loans payable are reported as liabilities at their outstanding value.

In the fund financial statements, governmental fund types report the face amount of the debt issued as other financing sources and issuance costs as expenditures.

O. BUDGETS AND BUDGETARY CONTROL

The City Manager prepares a draft of the annual budget from which the Mayor prepares a proposed budget. The City then advertises in a local newspaper giving notice regarding a public hearing in which local citizens may give their input regarding the proposed budget. The City also places a copy of the proposed budget on file for public inspection prior to the actual approval. Once all of these steps have been taken, the Mayor and City Council then formally adopt the annual balanced budget in a legally permissible manner. The legal level of control of the budget of the City is at the department level. All appropriations lapse at fiscal year-end. During the current fiscal year, there were amendments made to the original budget.

Budgets have been legally adopted for all funds. Budgets are adopted on a basis consistent with generally accepted accounting principles and on the same basis of accounting used by each fund to which the budget applies. Budgets are adopted annually for all governmental funds, with the exception of the capital projects funds, for which project-length budgets are adopted.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

P. FUND BALANCE

Fund equity at the governmental fund financial reporting level is classified as "fund balance." Fund equity for all other reporting is classified as "net position."

Fund Balance – Generally, fund balance represents the difference between the current assets, current liabilities, and deferred inflows of resources. In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund balances are classified as follows:

- Nonspendable Fund balances are reported as nonspendable when amounts cannot be spent because they are either:
 - (a) Not in spendable form (i.e. items that are not expected to be converted to cash such as inventory and prepaids):
 - (b) Legally or contractually required to be maintained intact; or
 - (c) Long-term advances of current resources made to another fund, to be repaid over a period extending beyond one fiscal year.
- Restricted Fund balances are reported as restricted when there are limitations imposed on their use either through the:
 - (a) Enabling legislation adopted by the City;
 - (b) Through external parties (creditors, grantors, or laws or regulations of other governments); or
 - (c) Constitutional provisions.
- Committed Fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed by formal action of the City Council through the adoption of a resolution. Only the City Council may modify or rescind the commitment. These self-imposed limitations must be set in place prior to the end of the fiscal year.
- Assigned Fund balances are reported as assigned when amounts are constrained by the City's intent to be
 used for specific purposes, but are neither restricted nor committed. Through resolution, the City Council has
 authorized the City Manager or the City Finance Director or the City Manager's designee to assign fund
 balances. With the exception of the General Fund, amounts in all other governmental funds that are not
 nonspendable, restricted, or committed will be considered to be assigned. Also, at the fiscal year end, any
 appropriation of existing fund balance to eliminate a projected budgetary deficit in the next fiscal year's
 budget is considered to be an assignment of fund balance.
- Unassigned Fund balances are reported as unassigned as the residual amount when the balances do not meet any of the above criterion. The City reports positive unassigned fund balance only in the General Fund. Negative fund balances in other funds are reported as unassigned.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

P. FUND BALANCE (Continued):

- Flow Assumptions When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the City's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the City's policy to use fund balance in the following order:
 - Committed
 - Assigned
 - Unassigned

Net Position – Net position represents the difference between assets, deferred outflows of resources, and liabilities in reporting which utilizes the economic resources measurement focus. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used (i.e., the amount that the City has spent) for the acquisition, construction or improvement of those assets. Net position is reported as restricted using the same definition as used for restricted fund balance as described in the section above. All other net position is reported as unrestricted.

The City applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

NOTE 2. SUMMARY OF DEPOSIT BALANCES AND INVESTMENTS

Custodial risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statutes require all deposits and investments (other than federal and state government instruments) to be collateralized by depository insurance, obligations of the U.S. government, or bonds of public authorities, counties, or municipalities. As of June 30, 2017, the City's bank balances of \$802,710 were fully collateralized in compliance with the state requirements.

NOTE 3. LEGAL COMPLIANCE

The SPLOST Fund has a deficit fund balance of \$41,863 as of June 30, 2017. The City has advance funded several of the projects with advances from the General Fund. As the SPLOST proceeds are collected, the deficit fund balance will be resolved.

NOTE 4. RECEIVABLES

Receivables at June 30, 2017, for the City's individual major funds are as follows:

	General	District Fire Tax	Sl	PLOST	ater and ewerage	Solid Waste	Total
Receivables:			•				
Taxes	\$ 4,514	2,987	\$	-	\$ -	\$ -	\$ 7,501
Accounts	41,001	-		-	95,180	19,993	156,174
Intergovernmental	-	417		70,121	-	-	70,538
Gross receivables	45,515	3,404		70,121	95,180	19,993	234,213
Less allowance for							
uncollectibles	-			-	(15,223)	(3,226)	(18,449)
Net total receivables	\$ 45,515	3,404	\$	70,121	\$ 79,957	\$ 16,767	\$ 215,764

The City contracted with Cherokee County to bill and collect the City's 2016 real and personal property taxes. Ad valorem tax on motor vehicles and mobile homes are collected by the Cherokee County Tax Commissioner and remitted to the City. City property tax revenues are recognized when levied to the extent that they result in current receivables.

Property taxes were levied as of October 19, 2016. Secured property tax payments were due on December 20, 2016. The City has not established a date for liens.

Assessed values are established by the Cherokee County Tax Assessor's office and are currently calculated at 40% of the market value. Based on the 2016 City millage levy of 4.916 mills, a property owner would pay \$4.92 per \$1,000 of assessed valuation.

The remainder of this page is intentionally left blank.

NOTE 5. CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2017 was as follows:

	Beginning Balance	 Increases	Decreases	Ending Balance
Governmental Activities:				
Capital assets, not being depreciated:				
Land	\$ 640,631	\$ -	\$ (2,000)	\$ 638,631

depreciated, net Business-type activities	4,297,497	(174,197)		4,123,300
capital assets, net	\$ 4,601,059	\$ (174,197)	\$ -	\$ 4,426,862

NOTE 5. CAPITAL ASSETS (Continued)

Depreciation expense was charged to functions/programs of the primary government as follows:

Governmental Activities:	
General government	\$ 44,868
Public safety	23,714
Public works	361,963
Health and welfare	1,872
Culture and recreation	 97,080
Total depreciation expense - governmental activities	\$ 529,497
Business-type Activities:	
Water and sewerage	\$ 277,697
Total depreciation expense - business-type activities	\$ 277,697

NOTE 6. INTERFUND BALANCES AND ACTIVITY

ADVANCES BETWEEN FUNDS

Advances to/from other funds at June 30, 2017 consist of the following:

<u>\$ 141,632</u> Advances from the General Fund to the SPLOST Fund for property acquisition

The City has advance funded several SPLOST projects with General Fund dollars. As the City continues to collect the sales tax dollars, these balances will be repaid to the General Fund.

NOTE 7. INTERGOVERNMENTAL REVENUE AND RECEIVABLE

The following amounts are due from other governments at June 30, 2017:

SPLOST Fund:

Cherokee County- Special Purpose Local Option Sales Tax \$\frac{\$70,121}{}\$

NOTE 7. INTERGOVERNMENTAL REVENUE AND RECEIVABLE (Continued)

The following amounts are a breakdown of intergovernmental revenues as of June 30, 2017 as referenced on the Statement of Revenues, Expenditures, and Changes in Fund Balances on page 23:

SPL	OST	Fund:
-----	-----	-------

Special Purpose Local Option Sales Tax	\$ 411,439
Georgia DOT – LMIG Funds	26,511
	<u>\$ 437,950</u>

NOTE 8. LONG-TERM DEBT

Governmental Activities:

Capital leases in the governmental activities consisted of the following as of June 30, 2017:

BB&T, purchase of 2014 police vehicle, original lease amount of \$31,574 with an interest rate of 3.40%, monthly payments of \$704 until maturity in 2018.	<u>\$ 4,873</u>
BB&T, purchase of 2014 police vehicle, original lease amount of \$33,052 with an interest rate of 3.62%, monthly payments of \$741 until maturity in 2019.	<u>\$ 14,354</u>
Regions, purchase of 2016 police vehicle, original lease amount of \$37,043 with an interest rate of 2.85%, monthly payments of \$1075 until maturity in 2019.	\$ 30,094
Kansas State Bank of Manhattan, purchase of 2015 police 3-camera Vigilant Car Detector License Plate Reader, original lease amount of \$17,950 with an interest rate of 5.156%, annual payments of \$6,626 until maturity in 2018.	<u>\$ 6,294</u>
Deere Credit, Inc., purchase of 2015 997 ZTRAK with 60" rear discharge deck, original lease amount of \$15,920 with an interest rate of 4.00%, monthly payments of \$358 until maturity in 2020.	\$ 8,909
Notes payable in the governmental activities consisted of the following as of June 30, 2017:	
Regions, refinance of Valley Street, original lease amount of \$341,367 with an interest rate of 2.350%, monthly payments of \$4,567 until maturity in 2023.	\$ 286,218
Regions, refinance of city administration building, original lease amount of \$1,211,623 with an interest rate of 2.95%, monthly payments of \$8,553 until maturity in 2031.	<u>\$1,132,917</u>

NOTE 8. LONG-TERM DEBT (Continued)

Business-type Activities:

Revenue Bonds payable in the Water and Sewerage Fund consisted of the following as of June 30, 2017:

Regions, refinance water and sewer system, original bonds (Series 2016) amount of \$1,290,000 with an interest rate of 2.785%, monthly installments of \$8,800 until maturity in 2031.

\$ 1,255,060

Notes payable in the Water and Sewerage Fund consisted of the following as of June 30, 2017:

Regions, refinance public works facility, original lease amount of \$281,525 with an interest rate of 2.85%, monthly payments of \$2,156 until maturity in 2029.

\$ 260,512

GEFA, construction of north sewer line expansion, original note \$173,200 with an interest rate of 1.52%, monthly payments of \$1,557 until maturity in 2027.

\$ 159,750

Capital leases payable in the Water and Sewerage Fund consisted of the following as of June 30, 2017:

BB&T, purchase of 2015 public works vehicle, original lease amount of \$27,627 with an interest rate of 3.38%, monthly payments of \$808 until maturity in 2018.

\$ 5,593

		Seginning Balance	 Additions	R	eductions	Ending Balance	(Due Within One Year

	\$ 1,419,135	\$ 263,817	\$	1,682,952		

Capital leases. The City's total capital lease debt service requirements to maturity are as follows:

Fiscal Year Ending June 30,		Governmental Activities				
2018 2019 2020	\$	37,639 23,122 6,100				
Total minimum lease payments Less amount representing interest Present value of future minimum lease payments	\$	66,861 (2,337) 64,524				

NOTE 8. LONG-TERM DEBT (Continued):

The City has entered into lease agreements as lessee for financing the acquisition of equipment and building improvements used in governmental activities. The lease agreements qualify as capital leases for accounting purposes (titles transfer at end of lease terms) and, therefore, have been recorded at the present value of the future minimum lease payments as of the date of their inceptions. The City's governmental activities had \$139,509 of equipment and improvements under capital lease, with \$57,763 of accumulated depreciation expense as of June 30, 2017. The City's business-type activities had \$30,552 under capital lease, with \$15,276 of accumulated depreciation expense as of June 30, 2017. The related annual amortization of the capital lease assets is included with depreciation expense for capital assets.

Total	\$	1,255,060	\$ 276,083	\$	1,531,143		

NOTE 9. DEFERRED COMPENSATION PLAN

The City offers its full time employees a deferred compensation plan in accordance with Section 457 of the Internal Revenue Code after one year of service. This Plan is considered to be a defined contribution plan, which is administered by Wells Fargo Advisors through American United Life Insurance Company (AUL) Retirement Services an OneAmerica Company. The employees voluntarily contribute any percentage of their choice up to the Internal Revenue Service mandated maximum. The City matched the percentage of the employee's contributions up to 3% of the employee's gross wages. The City's total payroll for the fiscal year was \$582,668 including \$370,952 payroll covered by these plans. The total amount of contributions made by Plan members was \$20,123 and the amount of the contributions made by the City was \$8,871. There are eight participants who are actively participating in the Plan and the Plan had \$160,737 of assets and reserves as of June 30, 2017.

Under the Plan, employees vest after one year of employment or the point at which they become eligible to make contributions. The City has the authority to amend the provisions of the Plans. Benefits are payable upon termination of employment, unforeseeable emergency, retirement or death. All amounts of compensation under the Plans, all property and rights purchased with those amounts, and all income attributable to those amounts are solely the property and rights of the participants of the Plans. The City has no liability for losses under the Plan that would be considered material and does not have the duty of due care that would be required of an ordinary prudent investor.

NOTE 10. COMMITMENTS AND CONTINGENCIES

There are no suits pending on unasserted claims that would result in material liabilities to the City. The City has entered into various agreements and contracts in the normal course of business. Such agreements do not give rise to assets or liabilities considered to be material at June 30, 2017.

NOTE 11. VOLUNTEER FIRE FIGHTER'S COMPENSATION

Volunteer fire fighters for the City of Ball Ground, Georgia receive as their compensation a \$20 credit on their monthly water bill.

NOTE 12. RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors or omissions; and workers compensation for which the City carries the following insurance coverages.

There were no significant reductions of insurance coverage compared to the prior fiscal year. Settled claims have not exceeded the commercial excess coverage in any of the past three fiscal years.

Risk Pools

The City joined the Georgia Interlocal Risk Management Agency (GIRMA). Insurance coverage and deductible options for property, casualty and crime under the policy are selected by City's management based on the anticipated needs. The City is required to pay all premiums, applicable deductibles and assessments billed by GIRMA, and to follow loss reduction and prevention procedures established by GIRMA. GIRMA's responsibility includes paying claims, and representing the City in defense and settlement of claims. GIRMA's basis for estimating the liabilities for unpaid claims is "IBNR" ("Incurred but not reported") established by an actuary. The City has not compiled a record of the claims paid up to the applicable deductible for the prior fiscal year or the current fiscal year. The City is unaware of any claim for which the City is liable (up to the applicable deductible) that was outstanding and unpaid at June 30, 2017. No provisions have been made in the financial statements for the fiscal year ended June 30, 2017 for any estimate of potential unpaid claims.

The City has elected to be a member of the Georgia Municipal Association Workers' Compensation Self-Insurance Fund (GMAWCSIF), a risk management agency created under Georgia law. As a participant in the GMAWCSIF, the City has no legal obligation to pay its own workers' compensation claims. The City is required to make an annual contribution to the fund in an amount that is determined on the basis of actuarial projections of losses. With payment of the City's annual contribution, the City has effectively transferred the risk and responsibility for payment of its workers' compensation claims. However, the enabling statute creating the GMAWCSIF permits the fund to levy an assessment upon its members to make up any deficiency the fund may have in surplus or reserves. No amount has been recorded in the financial statements for this contingency, as management believes the likelihood for assessment is remote.

NOTE 13. EXCESS OF EXPENDITURES OVER APPROPRIATIONS

During fiscal year 2017, one budgetary department exceeded appropriated amounts as shown in the budgetary comparison statement below. The management of the City intends to generate future income to offset the current fiscal year's excess expenditures. The following departments had expenditures in the General Fund and District Fire Tax Fund that exceeded budgeted amounts by a minimum of \$1,000 as indicated in the City's Statement of Revenues, Expenditures, and Changes in Fund Balances – Budget to Actual on page 23 and 24.

	_	_				tual (Over)	
	Budget		Actual		Budget		
General Fund:							
Highways and Streets	\$	-	\$	48,197	\$	(48,197)	
District Fire Tax Fund		182,800		228,031		(45,231)	

NOTE 14. JOINT VENTURE

The City, along with cities and counties in the ten (10) county Atlanta Metropolitan area, is represented by board members of the Atlanta Regional Commission (ARC). Representation in a regional development center (RDC) is provided for each municipality and county in the state. The official Code of Georgia Section 50-8-34 (Georgia Planning Act of 1989) provides for the organizational structure of the RDCs. Each county and municipality in the state is required by law to pay minimum annual dues to the RDC. The City paid no annual dues to the ARC for the fiscal year ended June 30, 2017 because currently all dues are paid on the City's behalf by Cherokee County. An RDC Board membership includes the Chief Elected Official of each County and the Chief Elected Official of a municipality within the County.

The County board members and municipal board members from the same county elect one member of the Board who is a resident (but not an elected or appointed official or employee of the County or municipality) to serve as the non-public Board member from a County.

The Georgia Planning Act of 1989 (O.C.G.A. 50-8-34) defines RDCs as "public agencies and instrumentalities of their members". Georgia laws also provide that the member governments are liable for any debts or obligations of an RDC beyond its resources, (O.C.G.A. 50-8-39.1). Separate financial statements may be obtained from:

Atlanta Regional Commission 40 Courtland Street NE Atlanta, GA 30303

OTHER SUPPLEMENTARY INFORMATION

This section of the CAFR includes the Special Report that is applicable to the 2012 Special 1 Percent Sales and Use Tax required by the State of Georgia as well as the governmental fund level statements for the City's discretely presented component unit, the Downtown Development Authority.

STATISTICAL SECTION

(Unaudited)

This part of the City of Ball Ground's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

Contents

Financial Trends

These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the City's most significant local revenue sources (property taxes and charges for water and sewerage services).

Debt Capacity

These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

⁽¹⁾ Restricted net position for capital projects is comprised mostly of SPLOST funds which are restricted to expenditure on the specific projects included in the voter approved referendum.

⁽²⁾ Restricted net position for fire protection services results from the levy of a property tax to fund contractual payments to Cherokee County to provide fire protection services in the City.

⁽¹⁾ An EPD assessment on the City's soccer field construction.

⁽²⁾ Repairs made to the City's newly acquired recreation gymnasium.

⁽³⁾ The City received over \$900,000 in on-behalf payments from the County's bond proceeds for construction of various City owned park improvements.

⁽⁴⁾ The City's newly constructed recreational facility and related equipment has depreciation applied for the first year.

⁽⁵⁾ The City's sales tax is received through intergovernmental agreement with the County and in 2010 was reported as capital grants and contributions.

⁽¹⁾ The increase in the millage rate is due to the inclusion of the Fire District Tax levy (3.436 mills) to fund contractual payments for Fire Protection Services to Cherokee County.

Source: Cherokee County Tax Digest

Notes: Property in the county is reassessed once every three years. The county assesses property at approximately 40 percent of actual value for all types of real and personal property. Estimated actual value is calculated by dividing assessed value by those percentages. Tax rates are per \$1,000 of assessed value.

⁽²⁾ The decrease in the total millage rate is due to the decrease of the City's mill rate from (5.375 mills to 5.139 mills) however the Fire District Tax levy (3.436 mills) remained the same as the previous year. The Fire District Tax levy is to fund contractual payments for Fire Protection Services to Cherokee County.

Note: Overlapping rates are those of local and county governments that apply to property owners within the City of Ball Ground.

^{(1) 2014} the cities within Cherokee County became responsible for the collection of the Special District Fire Tax. However the Cherokee County Board of Commissioners continued to be responsible for setting the millage rate for this tax. All prior years Cherokee County billed and collected this tax on the behalf of the cities.

Capital lease payable	 64,524	100.000%		64,524
Total direct debt	\$ 1,483,659		\$	1,483,659
Overlapping General Obligation Debt:	\$ 297 525 000	0.7420/	¢	2 071 054
Cherokee County School System Total Overlapping Debt	\$ 386,525,000	0.743%	\$	2,871,854
Total overlapping debt	\$ 386,525,000		\$	2,871,854
Total direct and overlapping debt	\$ 388,008,659		\$	4,355,513

Source: The overlapping debt numbers were obtained from Cherokee County's 2016 Comprehensive Annual Financial Report.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City of Ball Ground, Georgia. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

(1) The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the county's taxable assessed value that is within the City's boundaries and dividing it by the county's total taxable assessed value.
