Item 10: City Manager Comments

City Manager Wilmarth provided Mayor Roberts and the City Council with an overview of the Finances. The city got the House Bill 581 estimate back from the Tax Assessor's office. We are looking at a 3% inflationary growth in Ball Ground this year which is very close margins. City staff need a consensus from City Council to not respond to the Assessor and allow them to place last year's Milage Rate on the Tax Assessment notice.

City Manager Wilmarth gave an update on a few capital projects including the Roundabout Bid which has been awarded to Wilson Construction in the amount of \$3,249,045.90. The entirety of Ball Ground obligation on the project has been grant funded. The 372 Spur/ Truck Bypass hosted Senator Warnock's team to allow them to get a view of what we are dealing with. The Environmental Resources surveys have been completed and submitted to GDOT for review. We hope to have validation of concept by August of 2025 and be able to host an open house in early 2026 to allow people to see the map layout. The Mountain Brook sidewalk extension is at 55% completion and the second water line conflict has been resolved. He gave updates on multiple other projects throughout the city.
