Re: Submittal of the FY-2024/2025 City of Ball Ground Budgets

Mayor A. R. (Rick) Roberts, III  
Post Office Box 285  
Ball Ground, GA 30107

Dear Mayor Roberts:

Enclosed for your review and consideration are the proposed budgets for the City of Ball Ground General Operating Fund, Fire District Fund, SPLOST Fund, Water/Sewer Fund, Storm Water Utility Fund, Solid Waste Fund and the City's first Impact Fee budget.

Each budget is preceded by a memorandum that discusses the highlights and reasoning behind the various projections.

Budget totals are as follows:

Budget	Proposed 2025	Adopted 2024	Actual 2023	Increase/ Decrease	Percentage
<b>General Fund</b>	\$2,224,192	\$2,108,848	\$1,991,658	\$115,344	5.2%
<b>Fire District Tax</b>	\$652,280	\$517,753	\$514,372	\$134,527	25.9%
<b>SPLOST (Note 1)</b>	\$552,500	\$738,100	\$787,624	(\$185,600)	(25.1%)
<b>Water/Sewer</b>	\$2,352,000	\$2,275,700	\$2,109,374	\$76,300	3.4%
<b>Storm Water</b>	\$61,220	\$59,200	\$55,429	\$2,020	3.4%
<b>Solid Waste</b>	\$345,206	\$348,000	\$327,682	(\$2,794)	(.08%)
<b>Impact Fees</b>	\$154,000			\$154,000	
<b>Total</b>	\$6,341,398	\$6,047,601	\$5,786,139	\$293,797	4.6%

Note 1: July 1 begins collections of SPLOST under the 2022 referendum. We lost a bit of funding due to the reduction in allocated percentage based on population. We lost significant allocation due to Cherokee County increasing the tier one project to approximately \$110,000,000 – up from approximately \$22,000,000 in the previous referendum. Tier one projects come off the top resulting in less funds to distribute pro-rata.

Each fund will be discussed in more detail in the memorandum for the specific fund, however; several items that apply across the board to all funds are discussed below.

### **Zero Based Budgets:**

Each year we review the needs and the wants of each department and attempt to develop a viable budget document that addresses needs and incorporates additional wanted items that benefit service delivery. We do not simply apply across the board increases or decreases to the departments.

### **Personnel Costs:**

When reviewing salaries, it is important to note that some personnel (PD, City Clerk) are pure to one fund, and their entire salaries show in one fund. Other employees are split between 2 and sometimes 3 funds. Personnel who have split salaries are (1) City Manager is split 20% General Fund, 30% SPLOST for time expended directly working on capital improvement projects and accounted for at the end of each fiscal year through the audit process, and 50% Water/Sewer. (2) Finance Director is split 80% water and 20% General. (3) Utilities supervisor is split 80% sanitation and 20% water

Last year the city took action to bring our public safety wages to a level on par with other Cherokee County jurisdictions. Our entry level officers are very near equal with their peers. This year will see public safety receive a step increase for longevity as well as the 3.2% COLA to compensate for inflation in the Metro Atlanta Region.

Having brought public safety on par we are working this year to bring our public works and administrative hourly personnel closer to their peers. Our starting minimum wage is currently \$15.00 per hour in public works, compared to \$20.00 per hour in the City of Canton, \$20.60 in Woodstock and \$21.00 per hour in Holly Springs. Cherokee County is at \$17.00 per hour and is experiencing challenges similar to Ball Ground in staffing. While we cannot feasibly make this jump in one year to come on par with other jurisdictions, this budget does adjust administrative and public works staff to a minimum wage of \$17.00 per hour while making internal adjustments to existing personnel to avoid compression in the pay scale.

### **Capital Improvement Plan (CIP)**

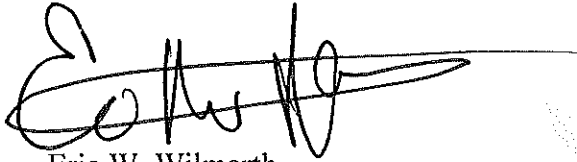

The Special Purpose Local Option Sales Tax (SPLOST) budget is used to implement our Capital Improvement Plan and the specifics will be discussed in that memorandum. However, it is important to note that while we have been successful in accomplishing many items in our Capital Improvement Plan, that almost every Capital Improvement Project comes with a funding need for ongoing maintenance. Recent examples for Capital Projects impacting operations costs would be Roberts Lake Trail, City Gym, Downtown Pocket Park, Old Dawsonville Road tree/flower plantings, Valley Street Gazebo shrub and flower plantings etc.

These combined budgets will provide funding to accomplish several more items in our Capital Improvement Plan this year, with several of these projects having already begun. These projects include the roundabout at Howell Bridge Road, resurfacing of Grogan Street, Roberts Lake Trail Extension to downtown, Mountain Brooke Backup Water Supply Connection, and completion of the Parks Master Plan. We also plan on getting under way with construction of the Mountain Brooke Sidewalk Connection which will be bid specific and paid for using reserve funds.

### **Depreciation**

Depreciation is only addressed in our proprietary or "business type fund" budget, and not in the general operating fund under governmental accounting standards. With that said, we do depreciate our governmental facilities and certain assets and infrastructure, but that is accounted for in the annual financial statements, not the budget.

Sincerely,

A handwritten signature in black ink, appearing to read "Eric W. Wilmarth", with a long horizontal line extending to the right.

Eric W. Wilmarth  
City Manager

DRAFT

MEMORANDUM FOR THE CITY COUNCIL

# Memorandum

**To:** Mayor A. R. (Rick) Roberts, III  
**CC:** Each Member of Council  
**From:** City Manager  
**Date:** 3/21/2024  
**Re:** FY 2025 General Fund Operating Budget

---

The proposed operating budget for the general fund for the period beginning 1 July 2024 and ending on 30 June 2025 is submitted for your review with the following comments.

We are projecting a total revenue of \$2,224,192, an increase of 5.2% over the previous year. This budget is to provide for the daily operations of the City, and we do not plan or fund projects directly through the general fund. Our capital projects are funded from the "reserve fund" or the SPLOST budget. Ongoing maintenance of those capital projects are then typically funded through this budget.

This budget anticipates an increase of \$35,000 in property tax revenue to be achieved thru growth. This budget does not anticipate the need for a property tax increase to fund operations.

This budget provides for increasing our reserve fund by fifty-thousand dollars (\$50,000) as well as allocates Sixty-Three Thousand Dollars to the contingency line that can be reallocated throughout the year as necessary.

**NOTABLE CHANGES BY LINE:** (Any line with more than a \$5,000 variance or a 50% variance from the previous budget, except for personnel costs that have already been addressed in the transmittal letter).

**REVENUE:**

**Property Taxes:** We are projecting an increase in property tax collections of approximately thirty-five thousand dollars (\$35,000) over the previous year's budget. This is based on growth and does not anticipate the need for a property tax increase.

**Title Ad Valorem Tax:** This line is projected to increase \$27,000 based on actual receipts to date. This line is obviously difficult to project as it is based on vehicle purchases which fluctuate widely from year to year.

**Franchise Fee Electrical:** We anticipate, based on growth, that this fee will increase to \$150,000 annually. This fee is derived from collections of 3% on electrical utility bills within the city limits. This fee charged to the power companies is what allows them access to our city owned properties and rights of way to

**Building Permits and Inspections:** We are projecting revenue of \$265,000, up from \$247,500 last year. This is based on the estimate of 102 residential building permits with a significant number of these permits being issued for larger homes in Malones Pond and Brogans Bluff. There is no anticipated increase in building permit fees this year.

**LMIG Grant** – We anticipate this line to be funded at \$80,000, up from \$35,000 last year. This is due slightly to increased growth, slightly more road mileage, and then the commitment from the State to double the funding this year. Next year this line will drop back to normal levels.

**Gymnasium Usage Fees:** We anticipate revenue will increase from \$17,000 to \$25,000 based on current use and receipts. This facility is our most heavily used facility and soon should come close to paying for its own operations and maintenance. We will be obtaining estimates from Atlanta Gas Light to extend Natural Gas to the facility which will drastically cut our heating costs, as well as exploring methods to control entry/exit to prevent the propping open of doors that further drive-up energy costs.

**Municipal Court Fines:** We anticipate a reduction in this line from \$125,000 to \$60,000 based on actual year-to-date receipts as well as a shift in mission. While we will still work traffic our focus will become more oriented towards community policing, spending more time in neighborhoods and downtown.

**Interest Income:** Due to increased interest rates as well as fund balances, we anticipate increased revenue to at least \$12,500. We are also working to determine if Georgia Fund One is right for us as interest rates are hovering in the 5% range, however, while use by a significant number of Georgia Cities and Counties, and while it is completely legal, our funds on balance would not be protected by FDIC Insurance or Pledged Collateral is required when we deposit into traditional banks. While the risk is minimal, there would be risk.

**Management Fees/Other Funds:** We are increasing this line item from \$67,500 to \$82,500 as other funds (water, sewer, solid waste, storm water) provide funds to assist towards electricity, building maintenance, grounds maintenance, personnel etc.)

#### **EXPENSES:**

In the expense section, each department has increases in the personnel lines due to our previously discussed wage/salary adjustments. Below we will describe other types of significant changes in each expense category that are not related to personnel.

**City Council Expense:** We have increased this line from \$30,150 to \$37,525 with the bulk of the increase going to liability insurance, travel, and education. We have a very active City Council that is taking advantage of numerous training opportunities to help move our city forward.

**Administrative Expenses:** Our expenses in administration will decrease from \$480,086 down to \$447,349 due to a reduction in funds committed to contingency and reserve fund deposit. It should be noted that we will dip into the contingency fund very early in the fiscal year as we plan to use these funds to hire a new City Clerk that will be able to job shadow our retiring City Clerk for a 4-6 month time period.

**Building Expenses:** We have increased this line from \$71,650 to \$86,650 to provide funds to update the wall covering in City Council Chambers.

**Police Department:** Changes in the Police Department budget this year are relatively minor, this year seeing a decrease from \$812,605 to \$802,549. This decline is due to the completion of the move into their new building, reduction in computer lines because computers are new and a significant drop

in small equipment as the new laser program was funded and a complete change out performed. Group insurance also sees a decline due to several officers having other insurance options they have exercised.

**Roads and Streets:** This line item will see a decrease in funding from \$101,196 to \$93,800. Two major factors play into this reduction. First, we will see one year of elevated LMIG Funding so that increase the line, however we defunded the general fund roads and streets department in favor of moving it to parks and recreation.

**Senior Center:** This line increases by almost \$10,000 for the purpose of acquiring an outdoor storage building. The seniors are completely out of the room and additional storage is needed.

**Parks and Recreation:** This line will increase from \$186,9090 to \$280,209, primarily from shifting of the vacant roads and streets position to this line. The goal is to free up public works staffing he are also currently dealing with all issues relating to parks. This position will give us more eyes on the parks constantly as we also work to have the best park facilities possible. This position will have daily responsibilities in the pocket park to keep it clean and organized, daily trash pick-up, gymnasium maintenance and cleanings as well as hosting recdesk, scheduling facilities, and follow-up for the purpose of addressing damage and vandalism to our facilities. This position would be housed in the office at the field two concession stand and would be a flex position working 40 hours per week, with the scheduling floating based on activities within the city from baseball tournaments, special events, etc.

**Planning and Zoning:** Budgeted increase of \$20,000 primarily to fund a re-write of our zoning code. We have made numerous changes and updates but will be seeking assistance from a third party to assist with our final changes and then re-write the code of ease of use.

**Additional Notes:** As we move towards budget adoption, there will be one additional significant expenditure that will come forth as a budget amendment once plans have been finalized. Our City Clerk has expressed her desire to retire on January 1<sup>st</sup>, 2025, six months into our budget year. We believe it would be prudent to advertise for a new City Clerk, and to bring this person on board as early into this budget year as possible to allow for several months of job shadowing prior to the city clerk's retirement.

Memorandum

**To:** Mayor A. R. (Rick) Roberts, III  
**CC:** Each Member of Council  
**From:** City Manager  
**Date:** 3/21/2024  
**Re:** FY 2025 Fire District Tax Budget

The proposed budget for the Fire District Tax for the period beginning 1 July 2024 and ending on 30 June 2025 is submitted for your review.

In our Memorandum of Understanding with the Cherokee County Board of Commissioners, the City of Ball Ground chose to participate in the Special Fire Tax District. As a result, the City of Ball Ground adopts the same millage rate for fire as set by the Cherokee County Board of Commissioners (BOC). We collect the tax from our residents, and once annually we remit full payment to the BOC. Per the agreement we remit full payment, even against properties who may not have paid their taxes to the City. Given that our collection rate exceeds 98% annually this has not presented an issue in the past. Occasionally, as projected in this budget year, we anticipate that we will actually collect more than we disburse because in several previous years we have disbursed more than we collected. As the tax commissioner collects delinquent taxes, we are then made whole for previous expenditures, and collect some additional penalties and interest.

This year we anticipate the digest, with growth, and based on the last adopted millage rate will come in at \$652,280.

City of Ball Ground, Georgia

From: City Manager
Date: 3/21/2024
Re: FY 2025 Special Local Option Sales Tax (SPLOST)

The proposed operating budget for the SPLOST Fund for the period beginning 1 July 2024 and ending on 30 June 2025 is submitted for your review with the following comments.

We are projecting a total revenue of \$552,500. This represents a substantial decline of \$185,600 or 25%. The decline is due to two reasons. First, and the least impactful, is that in the latest referendum the percentage allocated to the City of Ball Ground dropped as funds are distributed by population. While Ball Ground continues to grow, and by growth percentage we are the fastest growing in the county, the realist situation is that while our growth percentage is high, or population percentage of the entire county is insignificant. Secondly, and having the biggest impact, the tier one project for Cherokee County in the previous referendum was only 20 million dollars. In this referendum the Tier One project is 110 million dollars. Tier one projects come off the top of the county distribution. In reality, the courthouse addition will have a 25% negative impact on our SPLOST budget.

Significant budget changes over previous years include:

REVENUE:

SPLOST Revenue: Declines by 25% due to the reasons stipulated above.

EXPENSES:

Salaries/Wages: An estimated portion of salaries allocated to the City Manger are provided in this section for hours physically spent on SPLOST Capital Improvement Projects. The City Manager reconciles hours at the end of each fiscal year with the city auditor to validate time worked on capital projects. If sufficient hours to justify this estimate have not been achieved at year end, then the remainder will be applied to general fund. If the City Manager has worked more than enough hours and the estimate is surpassed, no changes will be made, and the estimated amount will be allocated to salaries as originally planned. The allocated hours may only be hours worked on SPLOST referendum approved capital projects.

Public Safety: At \$85,000, Public Safety shows a decrease of \$7,292. Over the preceding years the city has funded public safety at a pace far exceeding other departments. Of the \$85,000 in allocated SPLOST dollars, \$55,186 will be spent on vehicle lease payments. This budget does project the additional of one more patrol vehicle but does not schedule that purchase until October of 2024. We have one vehicle scheduled for pay-off in September of 2024 and an additional vehicle pay of in

March of 2025, so adding the new vehicle the following month has far less impact on the overall budget. We will retire debt on one more vehicle in November of 2025 and two more vehicles in August of 2026 and November of 2026.

**Patching and Repairs:** Has been reduced from \$37,500 to \$30,000 due to loss in revenue.

**Repairs and Maintenance:** Has been reduced from \$37,500 to \$30,000 due to loss in revenue.

**Roads and Streets Capital Projects:** \$100,000 has been allocated to Roads and Streets Capital Outlay, down from \$200,000 in the previous budget cycle due to loss in revenue. Paving priorities this year will be coupled with LMIG from General Fund and will be allocated to Grogan Street resurfacing and deep patching on Valley Street.

**Small Equipment:** Programmed at \$25,000, down from \$50,000 in the previous cycle, again due to loss in revenue. The funds are projected to assist with the funding of a walk behind slope mower for maintain the steep banks behind Lions Field and also behind the Community Building. These slopes are currently maintained using weed eaters with an extensive time requirement.

**Parks:** Programmed at \$60,000, this is a \$20,000 decline from the previous year. These funds are not currently targeted for expenditure, but as soon as the parks master plan is adopted, we will begin the process of identifying the small dollar projects that can make a big impact. This may include items prioritized as very high in the community such as more seating options, shade options, bottle filling stations, more dog waste stations etc.

**Capital Improvement Program:**

Resurfacing of Grogan Street

Initial Items in Parks Master Plan

Attached to the budget this year you will find a table of recurring charges. This is an outline of debt payments being funded through the SPLOST program, whether by lease or bond. Included are the City Hall, Valley Street, Patrol Cars, Tag Readers and Roads/Streets Equipment.

# Memorandum

**To:** Mayor A. R. (Rick) Roberts, III  
**CC:** Each Member of Council  
**From:** City Manager  
**Date:** 3/21/2024  
**Re:** FY 2025 Water and Sewer Fund Budget

---

The proposed operating budget for the Water and Sewer Fund for the period beginning 1 July 2024 and ending on 30 June 2025 is submitted for your review with the following comments.

We are projecting a total revenue of \$2,352,000, up from \$2,275,700 in the previous year.

This budget does not propose a rate increase to most of our existing customers.

This budget does anticipate rate increases on all commercial/industrial buildings with fire service lines. Currently there is no charge for the existing fire line connections. We are proposing to establish a Fireline connection fee of \$50 per month. We currently have 10 customers this will impact. This rate change will be indicated in the "Fee Schedule" that will be presented to Mayor and City Council in July, 2024.

This proposed budget will also bring the City into full compliance with the rate structures as called for in our Service Delivery Strategy with Cherokee County and the Georgia Department of Community Affairs as well as the North Georgia Metropolitan Atlanta Water District, including the doubling of our irrigation water rates.

Notable changes in the budget over previous years include:

**REVENUE:**

**Sales of Water:** We are anticipating an increase in sales of \$45,000 with a significant portion of that increase coming from the completion and occupation of the townhomes on Old Dawsonville Road as well as the Farmers Crossing Creekside project by Lennar of 70 homes.

The remaining revenue lines are not tremendously different from previous years with water and sewer capacity fee collections anticipated to be slightly less this year as building returns to a more normal, slower pace. However, these fees are projected against residential growth only. For example, when the new Beef O'Brady's restaurant comes online, if permitted at currently planned size, this would add an additional (unbudgeted) sewer capacity fee of approximately \$100,000.

**EXPENSES:**

**Water Administration:** This budget anticipates the increase of \$252,961 of expenses under administration, of which \$172,570 can be attributed to personnel. This budget adds one new person for public works. In addition, we are also increasing our minimum wage from \$15.00 to \$17.00 per hour and making adjustments in house to existing personnel to avoid compression in the pay scale. Group insurance also increases substantially this year \$69,708. This is due to additional personnel, rate increases, removal of personnel from outside plans that were formerly covered by others (parents, spouse etc.) and are now covered by our plan.

**CAPITAL ITEMS PLANNED:**

Full design and bid award for third water purchase point from CCWSA with connection to Mountain Brooke North which will also increase pressure.

Automated Valving System located on SR Bus 5 between Cliff Holcomb and Lantern Walk. This valve installation will allow us to automatically maximize our well production and minimize water purchase.

Design of Force Main upgrade between Howell Bridge Lift Station and Sage Hill Lift Station. Last year we provided funds to design gravity sewer between the two locations. It was determined early in the design phase that this gravity connection could not be made due to station elevations. To increase capacity at the Howell Bridge Station a new force main will be required to allow for additional flow. In the 5-7 year future we will need to design a force main upgrade from Sage Hill on to our CCWSA Connection point.

# Memorandum

**To:** Mayor A. R. (Rick) Roberts, III  
**CC:** Each Member of Council  
**From:** City Manager  
**Date:** 3/21/2024  
**Re:** FY 2025 Storm Water Utility Fund

---

The proposed operating budget for the Storm Water Utility Fund for the period beginning 1 July 2024 and ending on 30 June 2025 is submitted for your review with the following comments.

**REVENUE:**

Revenue is expected at \$61,220 up from \$59,220 in the preceding year.

**EXPENSE:**

We have one projected significant project this year with most all funds contributing. Our Parks Master Plan as well as our Capital Improvement Plan call for a realignment of Civic Drive at Groover Street as well as with the entrance to Calvin Farmer Park, Senior Center and Tennis/Pickleball area.

We anticipate that we will use \$45,000 of our total collections to make the necessary storm water adjustments to enable the park entrance relocation as well as the roadway realignment. Our current storm water situation is the best it has ever been on Groover Street and this project should work to place the finishing touches on several years worth of work in this location. Groover Street is our second largest storm water collection point in the city, taking collections from Old Canton Road to the west, The Wheeler House to the East, and all of the downtown area as well.

**Re:** FY 2025 Solid Waste Fund

---

The proposed operating budget for the Sanitation Fund for the period beginning 1 July 2024 and ending on 30 June 2025 is submitted for your review with the following comments.

This budget anticipates the collection of \$345,206 which is down from \$348,000 as a result of changing contract service providers (Waste Management to Waste Pro)

Based on the accepted rates with Waste Pro and our anticipated customer base, both our revenues and expenses will decline, while at the same time increasing the funding level for street lights and management fees.

**CC:** Each Member of Council  
**From:** City Manager  
**Date:** 3/21/2024  
**Re:** FY 2025 Impact Fee Fund

---

The proposed budget for Impact Fees for the period beginning 1 July 2024 and ending on 30 June 2025 is submitted for your review with the following comments.

**REVENUE:**

Revenue is anticipated at \$154,000 in our first year of collections. Of this, \$51,000 would be collected for roads while \$102,000 would be collected for Parks.

**EXPENSE:**

With the collection of \$51,000 in Road Impact Fees the budget calls to reimburse the General Fund \$26,000 for its share of the cost of the impact fee study that was paid for with general fund dollars.

The remaining \$25,000 is allocated to work in tandem with SPLOST and Storm Water Fund dollars to accomplish the realignment of Groover St at Civic Drive which will also provide for the realignment of the entrance to the upper level of Calvin Farmer Park (Currently Community Building Area)

With the collection of \$102,000 in Impact Fees for use in Parks, we have allocated \$25,500 to reimburse the general fund for its portion of the cost of the impact fee study that was funded with general fund dollars. Additionally, we intend to use \$50,000 to realign the entrance to the upper level of Calvin Farmer Park. This will be done in conjunction with the project in roads and storm water that will realign the current Groover St intersection at Civic Drive. The final \$25,000 will be place in reserve fund or contingency to be allocated to projects identified in the Parks Master Plan and on the Impact Fee Ordinance Capital Improvement Element.
