16	NO DATA The biggest concern should be Main Street and the frequency the roads need repaved with a higher population and 100s of new cars to be expected in the next year. With all the tractor trailers passing through, Main Street CANNOT continue to be the only way to get onto 372. The by-pass needs developed! With all the developments of new townhouses and neighborhoods near the park, there will not be adequate parking for the parks or for downtown with the current available parking spaces. Old Dawsonville Road will become heavily traveled and will be hard for cars to turn into the current park parking.	1/25/2024 9:46 PM
17	More natural green space with natural shade.	1/25/2024 9:26 PM

40	Outdoor fitness equipment	1/19/2024 12:43 PM
41	Lighting at Night. Emergency light/alarm like they have on college campuses. More definition between areas, seems like alot of concrete and asphalt run together specifically around the senior center, basketball courts, Tennis courts. Grass areas with curbing and landscaping would make the area more inviting and increase the curb appeal of the area. Hope that makes sense to whoever is reading this.	1/19/2024 9:01 AM

44	Definitely a splash pad!! Frisbee golf?	1/18/2024 10:53 PM
45	NO DATA Just please consider that it's probably just fine as it is. We are so full, so overrun. The park was always such a sweet spot to take our kids as they grew up here. We stopped going as it got busier, dirtier, and just generally less pleasant with people not watching their children and being inconsiderate of others.	1/18/2024 8:52 PM

55	Some type of food dispenser to buy food for the ducks. We love seeing them. We would also love a place to sit at the pond.	1/18/2024 3:55 PM
56	Keep green space. Everything shouldn't be based on children. Tons of people that visit the park don't have children. Nature is most important to me.	1/18/2024 3:38 PM
57	More play type structures for kids. More seating for adults. Shading for summer. A splash pad would be great for the summer!	1/18/2024 1:39 PM

63	This community needs a pool. The people have come. Large investments have been made in the housing. Now it's time to build those people a park and community area worthy of their of that.	1/17/2024 1:25 PM
64	The community would love to see more pickleball courts that have full access, not controlled by the pickleball club. Separate place for kids to ride bike and scooters. 71	Adapted playground for children with disabilities. Inclusive playground	1/16/2024 7:32 PM
72	I would like to see the muddy baseball fields renovated. There are many parks outside of Ball Ground with turf fields and kids are always in the area. Batting cages would also be excellent. We need to decide where the baseball fields are going to be and combine the one on 372 with these. This would be a huge upgrade	1/16/2024 7:08 PM

79	Another restroom by basketball courts	1/16/2024 3:41 PM
80	Shade structure over the playground and more seating is much needed! When the sun is shining especially in the summer it is extremely hot at the playground since there aren't any trees close to the playground area. When it rains the water puddles up, so it may need to be graded or something as well.	1/16/2024 3:18 PM
81	More rest rooms.	1/16/2024 3:14 PM

242	About 6 rv sites. This could include 30 and 50 amp service and 3 shared water hookups. No dumps, this is not necessary for a few days stay.. A bathhouse with toilets and a shower. Collect fees in a secure lockbox mounted by the bathhouse. Many towns, especially TX and further west, have community campgrounds. I cannot predict how much it would utilized by rvers but it's a different idea. Ball Ground is holding a lot more festivals these days so maybe it would utilized. Advertise the park on sites like RVParky. How about a historical museum? Let's make Ball Ground interesting. Questions below. For the Rv site a single room with toilet and shower, no more than two. I can't recall the number of trash cans, better in a can than the ground - more the better! The walking trail by the duck pond is really too short goes nowhere. The Roberts Lake is	1/11/2024 11:59 AM

380	An updated playground would be amazing. Side note: Our church is located in Woodstock. However, we have a large small group of Ball Ground residents. We are in the planning stages of possibly planting a church in the BG area. We plan on being a church that exists for the good of the city - in the heart of the city. As we grow, we need a place for growing families to worship AND a place for local nonprofits to gather for collaboration. A local community center and outdoor pavilion could serve the community well.	1/6/2024 9:56 AM
381	It's been a couple of months since I've been. If it's not, I would love to see the playground wheelchair assessible for kids.	1/6/2024 9:49 AM
382	A community pool would be amazing. So many neighborhoods in Ball Ground do not have pools. I think this could be an additional fee for access if it was considered. I think the field behind the pond could be considered for this amenity.	1/6/2024 9:47 AM
383	I've always thought it would be a great idea to close in one side of the large field (probably the far side near the town homes) for a dog park. Put a fence around the grassy area with optional seating! I know this is a long shot but I do really wish the walking track was slightly wider. It's hard for two mamas with strollers to walk together without it being awkward or having to really ride the stroller on the edge. A nature trail that goes pretty far (without it being so secluded) would be really neat! There's a lot of stay at home mamas that homeschool their kiddos up here and they visit the park a lot. Incorporating different scenery but keeping it safe would be great!	1/6/2024 9:45 AM

289	6- The walking trail would be great, especially by the creek there. 11- That's a great spot for a trailhead. 15- The plan to renovate the community center is smart, the open air pavilion would add so much to the space.	1/6/2024 9:18 PM

291	Love it all	1/6/2024 8:58 PM
292	Splash pad	1/6/2024 8:55 PM
293	I love the idea of an upgraded playground. I also appreciate that both ball fields have been left alone. The rumor that one or both were going to be replaced with additional pickleball space was extremely disappointing. I love the compromise in this plan, having additional pickleball courts added with the existing ones, and getting to keep both ball fields.	1/6/2024 8:37 PM
294	Playground upgrade and more shading	1/6/2024 8:36 PM
295	I know pool installation is expensive as well as maintenance, but for all of the 32 years I've lived in Ballground I've had to leave my hometown and take my food and pool money to others cities traveling as far as Alpharetta to Wills park	1/6/2024 8:09 PM

337	The additional walking paths for sure, especially if they're more of a nature trail than paved.	1/6/2024 10:50 AM

348	I think the splash pad would be used by many. I definitely think 7 would be a better spot as people can use the larger parking lot and reserve the smaller parking lot for playground use and walking track. Also the walkway will be congested if the location is 3.	1/6/2024 9:56 AM
349	I like the idea of a splash pad. It might bring more families to the park. I don't want it to cost so much that taxes or whatever go up a lot. I'm also in interested in the walking trail. It gets boring walking in a circle.	1/6/2024 9:54 AM

13	Too many tennis/pickle ball courts. There is no need for another amphitheater and no need for any entry monument. What would an "entry monument" consist of? I am concerned the addition of a trail behind the duck pond will remove much of the green space/trees that make the park desirable.	1/25/2024 9:31 PM

54	I don't see the need for an upgraded entry monument. I'm assuming tax payer money is funding this project. most splash pads end up looking junky after a couple years and then they break and sit being unused and become an eye sore.

On the previous page because you can only select three options, I didn't put that on but I really do think that would be used. We had trouble finding a place to host our baby shower that was a pretty location but didn't cost an arm and a leg. We are in the land of 'wedding' venues and just to rent a space for two hours, the venues still charge an arm and a leg. Upwards of \$700 to host a baby shower, not including food. It would be nice to have a cute looking small building that could be easily used for birthdays etc.	1/6/2024 9:56 AM

70	NO DATA I find it interesting that there is being a senior center added, but there's a question of adding a splash pad. There are so many new homes being built and all on smaller lots. I feel like our neighborhood built in 2020 was probably the last neighborhood in Ball Ground that has been built on about quarter of an acre lots. All of the new developments being approved are on small lots with no yard for families.	1/16/2024 3:25 PM

I lived in a town where they had food truck Mondays in the town park and the food trucks would park around a circle, and it really helped bring the community together in the park. You could eat and then take a nice walk in the park before going home. I would just really love to see more community events in the park spaces.	1/14/2024 11:32 AM

165	Community Center!! A year-round usage facility is the best choice over just a seasonal seating area. Ball Ground has one of the only (if not THE only) Community Centers in Cherokee County. If replaced with a new, expanded facility, managed and maintained properly, it could be a revenue source for the City. Current structure is rarely used now because of run-down condition, lack of cleanliness, hard to heat/cool, poor restroom facilities. Meet with Pickens County Officials to learn how it's Community Center operates. It offers indoor sports facilities, along with meeting spaces. The 30,000 square foot Pickens County Community Center at Roper Park features: *2 full size gymnasiums *1 community room & 3 classrooms *Indoor walking track *Outdoor basketball court *2 outdoor pavilions Plus, the exterior is much more aesthetically pleasing than a metal building. Learn from this concept, then add additional features to best serve the needs of Ball Ground citizens and guests.	1/13/2024 8:28 AM

278	It looks great as is. I think more interesting playground equipment with the #4 upgrade would be great. A splash pad would be awesome and perhaps even an affordable snack shack/concession area at certain times in the spring thru fall.	1/7/2024 5:50 AM

293	I think the park needs a good quality splash pad that is reliable, and either flex space would be a good spot. The Waleska splash pad is very unreliable and quite a drive to not know if it will even be working when you get there. I would be more than willing to pay an admission charge or membership fee to use a splash pad in town.	1/6/2024 8:37 PM
294	Will there be bike parking? Maybe a bike tire pump and mini repair station like they have on trails. Are there sidewalks from the recent housing developments to the park. The proximity of the park is why my family bought our new home.	1/6/2024 8:36 PM

303	Improve community center for space rental. Needs upgrades for more eye pleasing and updated.	1/6/2024 5:57 PM
304	Community center. The community center has provided a gathering space for many years. The age and condition of the building no longer make it a desirable place to rent, but there is still a need for a space to reserve for large gatherings. The current location of the community center would be a good place to rebuild or within the walking trail along Old Dawsonville close to the new development if parking is created.	1/6/2024 5:40 PM

This will reduce the amount of parking spaces being used at the park as many of the residents will be able to walk to the park instead of drive there. 11	The park should serve as a green space for the ever growing community – not another development space. Preserving as much green and trees is essential to the health and happiness of this community. I think some nice landscaping and garden structures is a better use of the land than a new amphitheater and artificial shade.	1/25/2024 9:34 PM

25	Just don't do to CFP what Woodstock foolishly did to their downtown park with the addition of that amphitheater! The infrastructure isn't there! I like the pond feature. It's a nice idea, but it's kind of gross. My older kids haven't ever really played on the playground; they've always utilized the stream for unstructured play. So more playground is a nice idea, but only if it's done creatively. Most playgrounds are pretty cookie cutter. Thanks for the survey. Looking forward to seeing what happens.	1/19/2024 5:10 PM
26	I like the park, just think it could use more shade, water fountains for pets, more picnic tables (that are trashed by thugs). More visibility of law enforcement in the park would be appreciated as well.	1/19/2024 2:03 PM
27	Better equipment (like Veterans Park in Canton). Outdoor fitness equipment can be used by older kids, teens and adults. Nice to offer classes in city gym	1/19/2024 12:57 PM

29	NO DATA I wish Ball Ground would stop throttling us with what is presented as new, wonderful, and exciting. You cannot even move through town in the evenings now. The real estate agents who have created Facebook pages and push new events so that they can sell property here are obviously teaming with the city and it's gross. I wish the city would think of those of us who made Ball Ground our home long before all this overdevelopment began. The park is fine. Please don't add more things to cater to the hundred of people shoved into the new developments that are complete eyesores. Please just think of what it means for moving through the city. Don't think about making Ball Ground the cute little city to drive funds into pockets. Think about letting it be and letting those of us who really loved it before have some peace in our home town.	1/18/2024 8:59 PM

49	It's a nice park that I feel I would use more if there was a way to make it feel safer when I'm alone. The walking area is sort of away from everything so there's a greater fear of being attacked in that area.	1/16/2024 3:18 PM

52	The park is a big draw not only for Ball Ground residents, but for visitors as well. A master plan that would be implemented incrementally is a wonderful idea. The only suggestion I have a problem with is a splashpad. Stupid idea!	1/16/2024 1:42 PM

102	There is a lot of new housing going up and families moving in who need recreation, so let's make this park really special! 112	Stop building houses around it. Enough Already. Fix the roads first.	1/12/2024 7:27 PM
113	Just will say again that I'd rather see the money spent on failing infrastructure which benefits everyone. Parks are mostly for kids, a nice clean safe playground for children 2-12 is all that matters to me. I know pickleball is popular right now, but truth is a very small percentage of tax payers play and for all we know we have tax payers waiting for court time while non city residents are playing. Some of the other park facilities are fine, but again, until infrastructure is brought up to speed, the city should not be spending money on parks and police.	1/12/2024 5:40 PM

I wish the city had made plans to take the truck traffic north to utilize the existing entrance to 575/515. 140	The park is a beautiful addition to the city, as Ball Ground grows I think renovations are perfect and will only bring more curb appeal and the existing residents will reap the benefits. I would be very excited to have some of these amenities much closer to me than they currently are, like a splash pad!	1/12/2024 9:36 AM
141	Don't use old tires for the playground "floor" there's alot of research that that causes a like 20% increased change of childhood leukemia. Very toxic and I wouldn't let my kids play there anymore if you use recycled rubber for the floor	1/12/2024 9:34 AM
142	No to the Splashpad, the maintenance and health and safety puts the city at risk, do to have any interest in seeing that in the city, it's a fad and will fade out soon enough.	1/11/2024 6:17 PM
143	I support only item number 1 and item number 2 if it can function as both senior center and community center. The rest I don't support My ideas are not on the list. 149	I don't think a splash pad would be beneficial to our community. I think we have enough natural water areas and splash pads within driving distance to accommodate children/families.	1/9/2024 11:29 AM
150	I live at the Preserve at Long Swamp but do not have sidewalk access to the city. If we pay city tax dollars we should be able to access the city amenities via sidewalk.	1/9/2024 9:30 AM
151	I hope the city wants to invest in our kids having more to look forward to go to do in our own town, give them a splash pad and better play ground equipment. We have an amphitheater, we need more parking to accommodate that existing structure, not a new one. I don't go to the city's approved events at the city stage because there is no where to park. I think address the problem the city does have, no where to park to be able to enjoy the park or other events that are held.	1/9/2024 1:21 AM

We were also upset citizens were promised they would be owner occupied but turned into low cost rentals Budget rental developments like this frequently deteriorate and become problematic for municipalities and make adjoining areas like the park NOT SAFE! We hope city has learned their lesson. Maybe they have with the recent increases in police staff anticipating future problems with low cost developments.	1/7/2024 11:16 PM

182	By spreading out the improvements over time, I would hope there could be a section of the park that stays clear of construction/noise so it can still be a peaceful place to walk. Having the improvements on rotation would keep it accessible rather than creating a long period of closure. I'm neutral on the amphitheater, but perhaps that could be raised again with the inclusion of the potential events that would be planned there and where people attending would park.	1/6/2024 9:21 PM

193	Don't let this get too big and out of control. I've lived in BG for 30 years and it's changing for the worse. Too many people, traffic, and tourists now. Nobody knows each other like they used to. If the park is to be improved, make it something all ages can benefit from! Not just playgrounds for kids because they grow out of that. Just keep it clean and green with seating and shading and some nice flowers and such! A community garden area could be an option in one of the Free Zones.	1/6/2024 4:04 PM
