#### Ordinance of the City of Ball Ground, Georgia

First Reading:

Second Reading:\_

ORDINANCE NO.

# AN ORDINANCE TO CREATE A SPECIAL USE PERMIT PROCESS AND TO AMEND THE PERMITTED LAND USES AND CONDITIONS TABLE TO ADD SPECIAL USES

WHEREAS, the City Council does hereby find the following-amendments to Section 106.1 Special Use Permits and Section 104.18. - Permitted Land Uses and Conditions of the City of Ball Ground Zoning Code, attached hereto as Exhibit A, for the purpose of providing a process to review land uses that are generally compatible with the use characteristics of a zoning district, but require individual review of its location, design, height, intensity, configuration, and public facility impact, to determine the appropriateness of the use for any site and its compatibility with adjacent uses, to be a reasonable exercise of the City's police power, and in the best interests of the public health, safety, and welfare; and,

**WHEREAS**, O.C.G.A. 36-66-4 mandates any local government taking action which will result in a zoning decision shall provide for a hearing on the proposed action by causing to be published a notice in a newspaper of general circulation; and,

**WHEREAS,** the notice of public hearing, a copy of which is attached hereto as **Exhibit B** and incorporated herein by reference, was published more than 15 days prior to the final public hearing and decision; and,

**NOW THEREFORE,** be it ordained by the Ball Ground City Council, that the Official Zoning Map of the City of Ball Ground is hereby amended for city-initiated rezonings of various parcels.

SO RESOLVED, APPROVED, AND ADOPTED this 8th day of August, 2024

CITY OF BALL GROUND, GEORGIA

A.R. Roberts, III, Mayor

Attest:

Karen Jordan, City Clerk (Seal)

## EXHIBIT A - Part 1

Sec. 106.1. - Special land use permits.

- A) Purpose.
  - The purpose of a special use permit is to provide a process for review of a use that is generally compatible with the use characteristics of a zoning district, but requires individual review of its location, design, height, intensity, configuration and public facility impact to determine the appropriateness of the use for any particular site and its compatibility with adjacent uses.
- B) Authority.
  - 1) The City Council shall take final action on applications for special use permits in accordance with the procedures, standards and limitations of the zoning ordinance. To accommodate these special uses, the special use permit allows the City Council to approve a special use on a particular parcel without changing the general zoning district. Such approval shall be subject to the requirements set forth in this zoning ordinance and any additional conditions deemed necessary to ensure the compatibility of the special use with the surrounding properties. All special use permit applications shall be for a specific proposed use only. The special use permit shall not be used for securing early approval for conceptual proposals that may not be undertaken for some time. The City retains its right to subject certain uses to greater scrutiny to determine if they are appropriate or if additional safeguards may mitigate potentially harmful effects on neighboring properties.
- C) Special use permit procedure.
  - 1) The application and review process for a special use permit shall be the same as those for other zoning decision such variances, rezonings and similar.
    - a) Special use permits are not required to be heard by the Planning Commission. The City Council may request a recommendation from the Planning Commission as needed.
  - A complete application must be made on forms provided by the City and submitted to the Administrator or designee with all required documents and all fees paid prior to advertising and scheduling of public hearings.
    - a) The Administrator or designee has discretion to determine whether an application meets all requirements and can be deemed as "complete."
  - 3) In addition to the information and/or site plans that are required to be submitted for the proposed special use, additional information deemed necessary by the Administrator or designee to evaluate a proposed special use and its relationship to the surrounding area shall be submitted as requested.
  - 4) In the review process, particular emphasis shall be given to the evaluation of the characteristics of the proposed special use in relationship to neighboring properties and the compatibility of the proposed special use with its surroundings.
  - 5) Prior to any decision by the City Council, public hearings are required for all special use permit applications and shall follow the same City and State requirements as those for other zoning decisions such as variances, rezonings and similar.
- D) Additional special use permit review criteria.
  - The City Council may grant a special use permit only for those uses designated with an "S" in the *Permitted Land Uses and Conditions Table* of this zoning ordinance. The granting of a Special Use Permit is based upon the site plan presented to the City Council.

- 2) The City Council may grant special use permits for limited periods of time with identified expiration dates and may also restrict the special use permit to a particular owner, provided the criteria for the grant of a special use permit is met.
- 3) In addition to compliance with the existing zoning classification requirements contained in the zoning ordinance, the City Council shall consider, at a minimum, the following in its determination of whether to grant a special use permit, whether to limit the time such special use is allowed and whether to restrict the special use to a particular owner or party:
  - a) Whether or not there will be a significant adverse effect on the surrounding area in which the proposed use will be located.
  - b) Whether or not the use is otherwise compatible with the surrounding area.
  - c) Whether or not the use proposed will result in a nuisance as defined under state law.
  - d) Whether or not quiet enjoyment of surrounding property will be adversely affected.
  - e) Whether or not property values of surrounding property will be adversely affected.
  - f) Whether or not adequate provisions are made for parking and traffic considerations.
  - g) Whether or not the site or intensity of the use is appropriate.
  - h) Whether or not special or unique conditions created by the use are consistent with the purpose, intent and goals of the comprehensive plan.
  - i) Whether or not adequate provisions are made regarding hours of operation.
  - j) Whether or not adequate controls and limits are placed on commercial and business deliveries.
  - k) Whether or not adequate landscape plans are incorporated to ensure appropriate transition between adjacent or nearby properties.
  - I) Whether or not the public health, safety, welfare or moral concerns of the surrounding neighborhood will be adversely affected.
  - m) Whether the application complies with any applicable specific requirements set forth in the zoning ordinance for particular types of uses.
  - n) Whether the applicant has provided sufficient information to allow a full consideration of all relevant factors.
  - o) Whether the special use requested emits or creates unusual odors which would warrant use of an odor elimination/attenuation system as recommended by industry standards.
- 4) In all applications for a special use permit the burden shall be on the applicant both to produce sufficient information to allow the City Council to fully consider all relevant factors and to demonstrate that the proposal complies with all applicable requirements and is otherwise consistent with the policies reflected in the factors enumerated in this article for consideration by the City Council.
- E) Voluntary termination of a special use permit.
  - 1) The owner of the property approved for a special use permit may voluntarily request termination of the special use permit by notifying the Administrator, or designee, in writing.
    - a) The Administrator, or designee. shall notify the City Council of voluntary terminations as they occur.
  - 2) The approval of a special use permit for a specific use that may be operated by a lessee under a private agreement with a lessor in any zoning district shall not obligate the City Council to be responsible for or be required to resolve any disputes that may arise out of the voluntary termination of the special use permit by the property owner.
- F) Change in conditions or modification of a special use permit.

- 1) Changes to the conditions or modification of an approved special use permit shall be subject to the same application, review and approval process as a new application, including the payment of current relevant fees.
- G) Development of an approved special use.
  - The issuance of a special use permit shall only constitute approval of the proposed use, and development of the use shall not be carried out until the applicant has secured all other permits and approvals required.
    - a) The department shall not issue a certificate of occupancy for the specific use until and unless all requirements and conditions of the special use permit have been fulfilled by the owner of the property.
  - 2) If an application is approved and a special use permit is granted, all conditions which may have been attached to the approval are binding on the property.
    - a) All subsequent development and use of the property shall be in accordance with the approved plan and conditions.
  - 3) Once established, the special use shall be in continuous operation.
    - a) Upon discovery that the operation of the special use has or had ceased for a period of 90 days or more and the owner of the property has not requested voluntary termination of the special use permit, the Administrator, or designee, may forward a report to the City Council to recommend that action be taken to remove the special use permit from the property.
- H) Compliance with Special Use Permit Requirements.
  - 1) The City shall have the right to enter upon the property to periodically examine the operation of the specific use to determine compliance with the requirements and any conditions.
  - 2) If the Administrator, or designee, determines that the requirements and conditions are being violated, a written notice shall be issued to the owner of the property outlining the nature of the violation and giving the owner of the property a maximum of ten days to come into compliance.
  - 3) If after ten days the violations continue to exist, the Administrator, or designee, shall forward a report to the City Council for consideration of pursuing action to remove the special use permit from the property and may pursue any other available remedies for the violation.
- 1) Actions to be taken if plans of property owner are not implemented within specified time limits.
  - 1) The use for which a special use permit is granted shall commence operations or construction within 12 months of the date of approval by the City Council.
    - a) The terms "Commencement of operations" shall include: regular open hours to the public, regular on site business activities by employees and similar business operation activities.
    - b) The term" Construction" shall include: clearing, grading, site work, vertical building construction and similar construction type activities.
  - 2) If, at the end of this 12 month period, the Administrator, or designee, determines that active efforts are not proceeding toward operation or construction, a report shall be forwarded to the City Council for consideration of pursuing action to remove the special use permit from the property.
- J) Appeal of a special use permit decision.
  - Subject to the laws concerning legal standing to bring a claim, any person, persons or entities jointly or severally aggrieved by any decision of the City Council regarding a special use permit, with or without a concurrent variance, may seek review of the City Council's decision to the extent provided by law.
